BEST AND FINAL OFFER REQUEST LIST

1. IDENTIFIED DEFICIENCIES AND AREAS OF CLARIFICATION:

1.1 Keefe's proposal response to RFP paragraph 2.1.6 states in part, *"Keefe's proposal allows for senders to send messages for FREE and will NOT require the purchase of any credits. The required credits per message will be set at zero (0) credits allowing users to send as many messages as they wish without any cost."*

RFP paragraph 2.3.1 states, *"The contractor's application shall allow the customer to access a website through which electronic mail (e-mail) using plain text may be sent to any offender residing in a state agency institution. The e-mail shall not allow any attachments. Unless otherwise specified by the state agency, the electronic mail services shall be inbound only."*

Keefe must clarify their system shall only refer to e-mail and not credits.

Keefe Response: Keefe is providing our e-mail service at no cost to the customer. Therefore, there will be no credits necessary for our e-mail system. Keefe's system will only refer to e-mail and not credits.

1.2 Keefe's proposal response includes in Attachment C, copies of audited financials materials and in Attachment D, copies of fraud prevention materials with the statement, *"Keefe would like to identify this material as confidential proprietary information and invoke protection for the documents from disclosure pursuant to Missouri Revised Code 610.021."*

However, the State of Missouri does not consider the material to be confidential pursuant to section 610.021 RSMo as specified in RFP paragraph 4.1.5. Consequently unless Keefe can provide adequate explanation of what qualifies the material to be held as confidential pursuant to the provisions of section 610.021 RSMo, then pursuant to RFP paragraph 4.1.5, Keefe's entire proposal will be considered an open record. If Keefe disagrees with the state's final decision that a particular document is an open record and not confidential as they indicated in their proposal, Keefe may request the RFP proposal to be withdrawn due to confidentiality issues and open records.

Keefe Response: Keefe is ok with the state's decision to consider Keefe's entire proposal an open record.

2. OFFEROR RESPONSE TO CHANGED REQUIREMENTS:

2.1 The enclosed BAFO contains additional revisions deemed necessary as a result of the responses received. As a result of the revisions, the offeror shall acknowledge compliance with all requirement changes in the accompanying RFP attachment (as revised by this BAFO request), submit any response revisions that are necessitated by the requirement changes, and submit pricing reflecting the revisions to the RFP. The offeror may change, add information, and/or modify any part of their response.

The offeror's response to this Best and Final Offer must meet full compliance with the mandatory requirements, terms, condition, and provisions of the RFP. Failure to do so will result in rejection of the offeror's proposal.

Keefe Response: Keefe has read, understands and will adhere. Please see the enclosed pages referencing Keefe's response to the additional revisions made via the BAFO. Keefe has also included revised pricing and a revised response to 2.1.1.

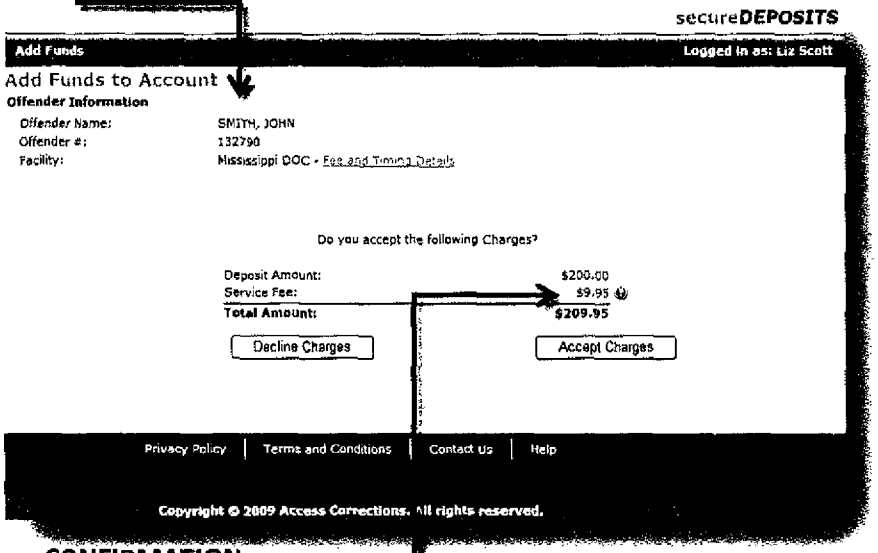
REVISED SECTION 2.1.1

Please see pages 5, 7 and 8 for highlighted revisions to our Original response.

2.1.1	The contractor shall provide a browser-based application for offender deposit services, electronic mail services for offender mail, and an integrated security/investigation application related to contractor provided services that meets or exceeds the provisions and requirements stated herein to the sole satisfaction of the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere. **Offender Deposit Services** Keefe's Secure Deposits service is ***currently offered at the Missouri DOC*** and allows inmates' family and friends to deposit funds in many convenient ways. Deposits can be securely and easily made through our toll-free phone number, online website and/or secure walk-up locations. **Online Deposits** In order to allow family and friends to make deposits online, Keefe operates a secure website 24/7/365. Depositors can visit our Secure Deposit website at www.accesscorrections.com and setup an account. All that is required to set up an account is an email address and a personal password. If a user does not currently have an email account, the website will direct them to a free email provider such as Yahoo or Hotmail in order to create an email account. Once they have completed this process, they can log onto the secure website. Depositors have the following functions available to them: • **Recipient list** – Users are allowed to create a recipient list that will allow them to add as many inmates as they choose. This list allows the users to efficiently add funds to an inmate's account • **View deposit history** – Each user is able to view their history for every deposit made from the website to each inmate's account • **Edit account information** – Users are able to enter in current information such as address and telephone number that will be used to process all deposits • **Add funds** – Users are able to simply click on a button, provide their debit/credit card information and make a deposit • **Remove inmate** – User can choose to remove the selected inmate from their recipient list at any time

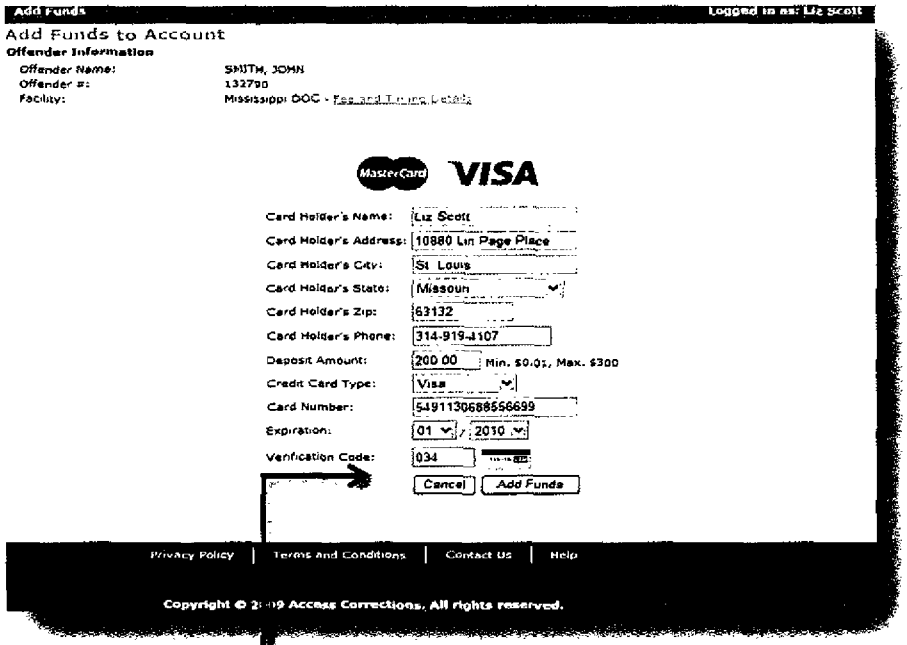
RECIPIENT INFORMATION

Clearly displays the inmate information to provide confirmation sender is depositing funds on the correct inmate's account



CONFIRMATION

Service fees are clearly stated for each transaction and total amount must be accepted by sender



VERIFICATION

All sender information is collected and verified prior to an authorization to deposit funds on an inmate's account

Phone Deposits

Keefe offers a 24/7 toll free phone number for friends and family to deposit funds using their MasterCard or Visa debit/credit card into an inmate's account. Our bilingual (English & Spanish) Customer Service Representatives ("CSRs") collect all account holder information that is required to gain approval for the use of the credit card.

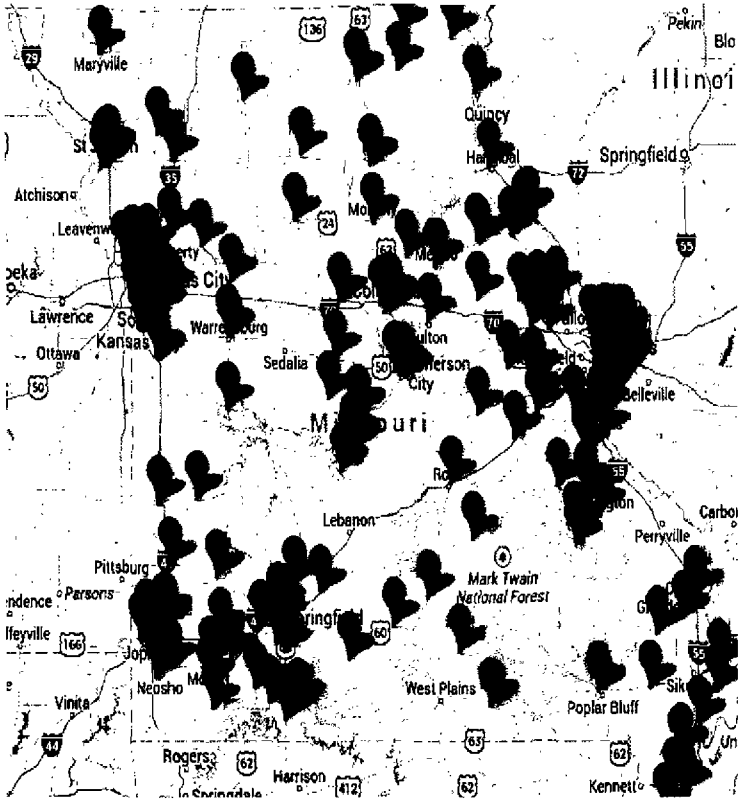
		Keefe has ***ninety-six (96)*** in-house CSRs and also provides support through a U.S. based third party call center. All CSRs are specifically trained to handle customer's phone deposits, transaction history, complaints and financial discrepancies. Keefe provides support and allows for phone deposits 24 hours a day, 7 days a week. All call center employee candidates must successfully pass a thorough background check, a satisfactory credit check, and drug testing before they are considered for employment. We take full responsibility of our call center operations and employees, and go above and beyond to provide exceptional, professional, and the most secure services to our customers. We have two separate and independent call centers which operate daily as backup and disaster recovery. Should one call center experience technical difficulties, all calls would automatically route to the other call center to continue providing uninterrupted service. **Walk-Up Cash Deposit Locations** Keefe has partnered with ***ACE Cash Express*** and ***ACH Payment Solutions*** in order to provide our customers with walk-in cash payment locations. These walk-in locations will accept cash deposits for inmates on behalf of Keefe. These walk-in locations make it simple and easy for users to make deposits to an inmate's account. ACE CASH EXPRESS® ACH PAYMENT SOLUTIONS Through this partnership, Keefe is able to provide a network of convenient retail locations from the ***corner convenience store to mobile phone providers and local grocers*** making the service easy and readily accessible. Between the two providers there are ***over 23,000*** walk-up locations, with ***over 900*** in Missouri. However, these locations will only accept cash. If a customer would desire to make a credit/debit card deposit, they can visit our website or call our toll free deposit service line. Please refer to **Attachment A** for a full list of available walk-up locations in Missouri.

Keefe has now added even more convenient locations. These locations now include convenient retailers such as ***CVS*** ***(82 Missouri locations), Dollar General (395 Missouri locations) and Family Dollar (114 Missouri locations)***.

Additional Missouri locations include retailers such as ***Hy-Vee, Kroger, Gerbes, Country Mart, Bi-Lo, Convenient Food Mart and Wireless Toyz.***

National locations include such retailers as ***7-Eleven, Radio Shack, Sprint.***

Also, see below for a map of Missouri locations:



In order to further enhance our Walk-In Payment locations, Keefe's system is setup with barcode technology. This has the user pre-register with our system easily online. Upon registration, the user will be emailed a "Payment Slip" (see sample below).

ACH PAYMENT SOLUTIONS

		Once the user has the payment slip, they simply walk into any CVS, Dollar General or Family Dollar location and go directly to the regular checkout line allowing them to avoid the longer lines typically associated with having to go through the Customer Service counter. They hand the slip to the clerk for them to scan the barcode, state how much money they are sending, pay the clerk the amount plus any transaction fee and collect their receipt for proof of payment. This process is simple and efficient making for a much more enjoyable experience for the user. Because of Keefe's interface with ***Ace*** and ***ACHPS***, the facility will receive one file reflecting all deposits/payments made whether through Keefe's service or through walk-in locations. Keefe's interface will make it easy for the facility to reconcile all inmate deposits. **Lock Box Service** This service isn't currently requested in the RFP but at any time during our contract Keefe would provide FREE lockbox services to the DOC, inmates and their loved ones. Keefe's Lock Box service is maintained by Keefe staff. Keefe does not outsource its operations and handles these important and secure services in-house using Keefe employees. All employee candidates must successfully pass a thorough background check, a satisfactory credit check and drug testing before they are considered for employment. We take full responsibility of our operations and employees, and go above and beyond to provide exceptional, professional, and the most secure services to our customers. The process for collecting funds is simple and efficient. We receive payment designated for inmate deposits and in most cases, review, process and post within 24 hours of receiving payment. All funds delivered through this method are guaranteed by Keefe. Deposits made via Keefe's ***Lock Box*** service are automatically included in the facility reports and investigative tools along with all other deposit methods. All deposit methods will be batched and sent to the facility in one file, making it easier and more efficient for the facility to monitor all deposits.

Electronic Mail Services for Offender Mail

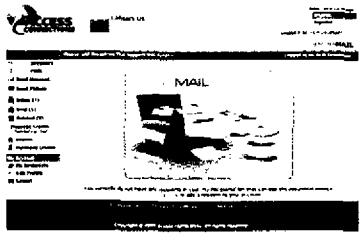
Secure Mail service by Access Corrections allows friends and family to log into our secure website and create an account. Similar to a Yahoo or Hotmail account, the account is free and the user is able to log-in and view their sent messages. This is the same website that is currently being used by those individuals utilizing our Secure Deposit services today.

Keefe's ***Secure Mail*** program is proven and is currently deployed at the following State DOCs:

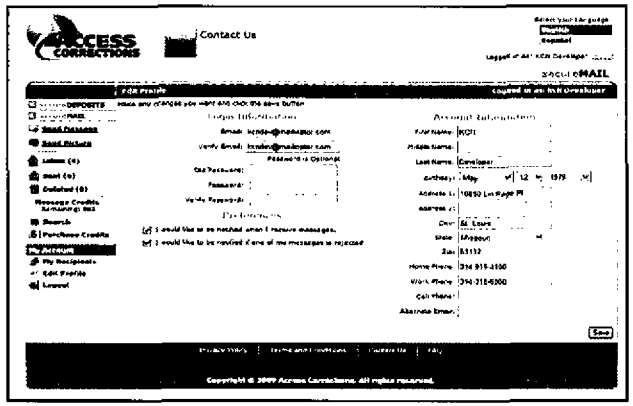
1. Arkansas DOC – 13,000 inmates
2. Massachusetts DOC (South Middlesex) – 10,500 inmates
3. Mississippi DOC – 16,000 inmates
4. New Hampshire – 2,400 inmates
5. Oregon DOC – 15,000 inmates
6. Virginia DOC (Green Rock Correctional) – 32,000 inmates
7. Wyoming DOC – 2,200 inmates

Keefe is offering Secure Mail messages *Free* to all MO DOC users!

Keefe's ***Secure Mail*** service will be provided for ***FREE*** to those users sending messages to Missouri DOC inmates. The Customer can log into our secure website www.accesscorrections.com and create an account. Similar to a Yahoo or Hotmail account, the account is free to the Customer. Once an account has been established, the Customer is able to log-in using our secure website and view their individual mailbox which includes all received messages and archived sent messages.



When a customer is logged in to our secure website, they can edit their profile and account information. The secure website is available in both English and Spanish. Users can select English or Spanish by clicking the language they want in the upper right corner of the webpage. They will also have the option to select if they would like to be notified when receiving a message and if they would like to be notified if one of their messages is rejected.



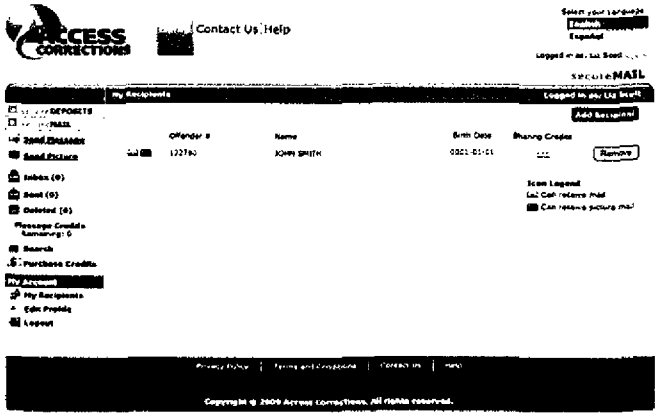
Once a customer has their account set up, they can then purchase message plans, which provide discounted message and/or photo credits, or individual credits to allow them to send messages/photos to the inmate. <u>However, Keefe understands the importance of inmate's having constant communication with their loved ones and the importance of easing the financial burden that this communication can have on both the inmate and loved one; because of this, Keefe is offering its Secure Mail service for ***FREE*** to those users sending messages to Missouri DOC inmates for the life of the contract.</u>

Customers will be able to access their inbox and have the ability to purchase message plans 24/7/365.

No need to buy stamps or message credits just add a recipient and you are ready to send a message. The customer can easily add a recipient in three easy steps:

Step 1: Select a State
Step 2: Select a Facility
Step 3: Search for inmate

The customer can search for the inmate using the inmate's number or by the inmate's last name. Once the search results are populated, the customer selects the recipient he/she was looking for and adds them to their "My Recipient" list.
Once the recipient has been added, the customer will be able to view them in the "My Recipients" page. This page will show the customer the recipient's Offender number, Name, Birth Date, and whether they are sharing their credits with that recipient. This page will also show the customer what services the inmate can receive (Secure mail, Secure photo mail and delivery to the inmate's MP4 where applicable). This will be displayed by the icons next to the inmate number.

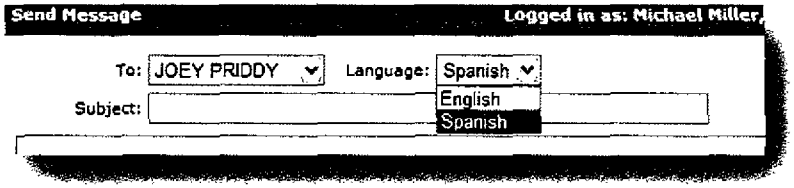


Sending a Message

Once the recipient has been added, the customer can then compose and send them a message. Messages can only be composed using plain text. There is no option for font or color changes (i.e. no bolding, no highlight, no italicizing, no special characters, etc.). This prevents any secret messages being hidden within the message.

Writing Messages in Spanish

Customers also have the option of typing their message in English or Spanish. If they choose to write their message in Spanish, when the message is viewed in the *Review Messages* queue on the Facility website a translation of the message will be displayed along with the original message. The translated message will also pass through Keefe's word watch software and highlight any flagged words.



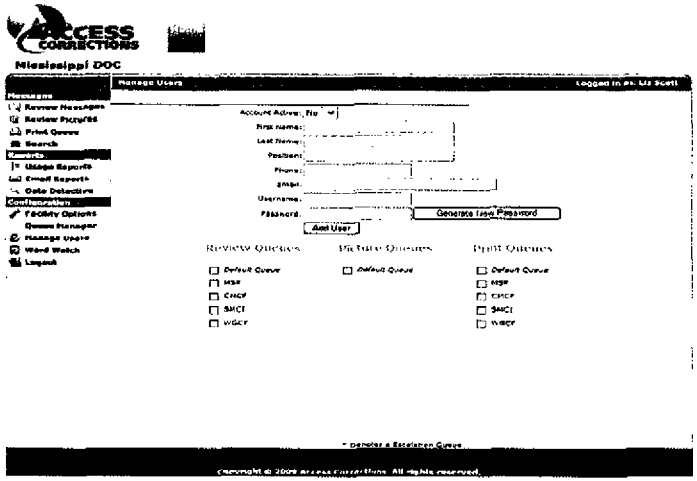
Sending a Picture Message (if allowed by DOC- this feature can be turned off)

Keefe's Secure Mail program does not allow any type of attachments to be sent with a message. All pictures are sent as a separate message. This prevents a picture attachment accidentally being overlooked and approved without review. With Keefe's program, the picture will come separate from the message so one can be rejected without affecting the other. By allowing picture messages, the facility will not need to worry about the costly and time consuming process of returning an unapproved photo and it will help to eliminate contraband.

Facility Management

Keefe has created a specific facility website for facility staff to view and approve/deny messages and photos. Authorized facility staff will have access to log-in to the website and view an inbox containing all pending messages and photos for that facility. The authorized user is able to sort the messages by the: To, From or Subject fields and will be able to open each message to review for content. Keefe will provide a PC and Printer at each facility to allow facility staff to access the facility management website. The PC's would connect to the facility website using the DOC's internet connection.

The facility will be able to set up multiple user IDs for facility staff to log on to the facility website to review messages. The facility will also have the ability to set-up different users with different privileges and control levels. Keefe will also have the ability to track and monitor the activities of the facility staff while logged on to the secure facility website. This will allow the facility to monitor who approved and denied each message.



Keefe's ***Secure Mail*** system will be programed for 1-way print and deliver However, if the state would so desire, our program can also provide two way email access through our ***MAXXpro4*** MP4 player.

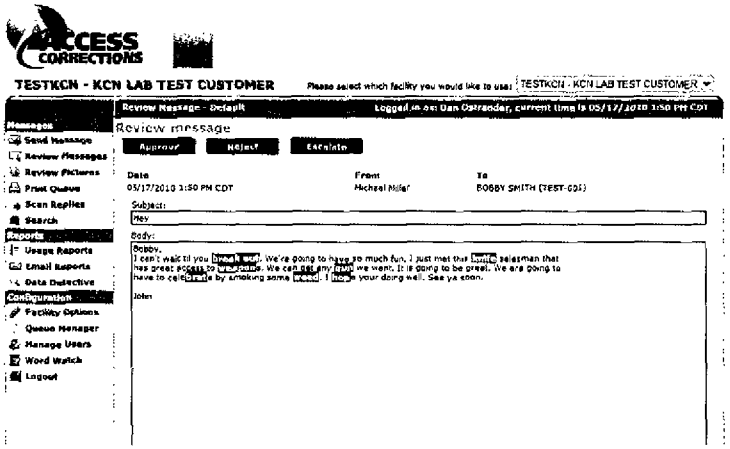
Word Watch Filter Software

Sent messages will pass through our ***Word Watch*** filter software that will scan each message for words or phrases that are predefined by each facility. Keefe has a complete database of pre-existing words and phrases that we will provide to the facility. However, our ***Word Watch*** software is completely customizable by each facility allowing them to enter words and phrases that are specific to their inmate population. Authorized staff is able to add or remove specific words and phrases as deemed necessary as well as change point levels they wish to assign to certain words.

Once the ***Word Watch*** scan is complete, each message is scored and displayed using a stop light tree system making it very easy for staff to see what messages they need to focus on:

- **GREEN** = no words or phrases found
- YELLOW = some words and phrases found
- **RED** = significant number of words and phrases found

After the message has passed through the ***Word Watch*** filter system, it can then be clicked on for further review. Once the message has been opened up, all words or phrases that have been flagged by the ***Word Watch*** software will automatically be highlighted for quick review. The facility staff can then select whether it is approved or rejected. If approved, the message will be printed for delivery to the inmate. All messages will be stored indefinitely so if they are ever needed for later investigative purposes authorized staff can easily recall messages and photos in-real time from the Keefe provided computer at each facility or any computer with internet access.



Messages that are filtered and defined as "green" can be sent directly to the printer without human interaction (if the facility chooses this option or they can be manually approved like all other messages). Messages classified as "yellow" can be reviewed by facility staff for approval and all "red" messages can be denied. This system is completely customizable to each facility, based upon the preferred approval method.

Auto Escalate Feature

Keefe also offers an "Auto Escalate" feature. This allows for messages sent to specified inmates or messages from specified customers to automatically escalate from mail room staff to a particular investigator or facility staff. This allows investigators to increase the depth of investigation of a specific inmate or customer and limit the ability of only certain staff to see these messages.

The "Auto Escalate" feature can be setup three (3) different ways:

- When a message hits a certain point value
- When it is a message from a specified customer
- When it is a message to a specified inmate

		Integrated Security/Investigation Application In order to control fraud and illegal activity inside and outside of facilities, Keefe has a dedicated team of ***twelve (12)*** investigators located at our corporate headquarters in St. Louis, MO. Keefe's Investigation Team reviews approximately ***27% of the payment transactions for suspicious activities***. The Investigation Team uses our proprietary software combined with industry leading intelligence software providers that are connected to public data bases. ***In addition to working directly with the DOC's Investigators, Keefe will integrate our data and share our Investigative results with Guarded Exchange to provide the most comprehensive Investigative Solution in the Corrections Industry.*** Guarded Exchange will integrate financial transaction data and email data from Keefe into its proprietary Data Profiling Software (ICONS). Results of data analysis will be made available to the State for investigation by MO DOC Investigators. ***Please see Attachment D – Fraud Prevention document for further details.*** As an additional feature and another way for the facility to monitor its services, Keefe's ***Data Detective*** is a data mining solution specifically designed to work in conjunction with our services. This tool is designed with the investigative nature of the corrections market in mind. Authorized staff will be able to search varying degrees of separation in order to establish links from inmate to inmate or end user to end user. Some of the features are listed below: • Facility staff can explore important data using a dynamic visual map • The unique design of the visual map allows investigators to quickly find connections and patterns • Web based program so authorized facility staff are able to view from their own desktop computer

The Facility will have access to reports ***24/7 in real time*** via the facility website. These reports can be searched by date range and include all transaction information. This provides the Facility with the sender's address as well as varying degrees of separation in order to establish links from inmate to inmate or end user to end user. The email reports can also be exported into Excel or as a PDF.

See below screen shot of the ***Data Detective***. It shows the sender "Michael Miller", his email address, street address, total messages sent and total deposits made. The software then establishes relationships with other inmates he has deposited funds to or sent messages.

Dear Mr. Kruse:

In accordance with paragraph 4.3.3 of RFP B2Z14034 for Offender Deposit, E-Mail, Integrated Security for the Missouri Department of Corrections, this letter shall constitute an official request by the State of Missouri to continue competitive negotiations with your company. Included with this letter are two attachments.

The first attachment is the Best and Final Offer (BAFO) #003 Request List and it includes a listing of areas identified in your proposal as areas requiring clarifications, and areas of deficiency which may not comply with the requirements of the RFP. The list also includes a request for specific responses to identified RFP paragraphs.

The second attachment is a revised complete copy of the RFP that includes additional changes to the RFP.

The RFP includes Best and Final Offer (BAFO) #003 as the cover page. Your response to BAFO #003 and the previously issued BAFO #002 and BAFO #001 can be submitted together as one response (since your BAFO #003 Request List incorporates the areas requiring clarification and areas of deficiency previously identified in your BAFO #002 and BAFO #001 Request List). Your detailed BAFO response needs to include BAFO cover pages #001, #002, and #003 completed and signed by an authorized representative of your organization. In addition, your detailed BAFO response should address each area identified on the BAFO Request List using the same numbering outline as the list. **However, please be advised that it is not necessary for you to resubmit your entire proposal.** Only the signed BAFO cover pages #001, #002, and #003, your response to the BAFO Request List, and any portions of your proposal that are being revised as a result of this request for a Best and Final Offer need to be submitted.

In your response to this Best and Final Offer, you may make any modification, addition, or deletion deemed necessary to your proposal. However, please understand that the State of Missouri is under no obligation to advise you of concerns regarding your proposal and makes no claim related thereto. Your response to this BAFO request is your final opportunity to ensure that (1) all mandatory requirements of the RFP have been met, (2) all RFP requirements are adequately described since all areas of the proposal are subject to evaluation, and (3) this is your best offer, including a reduction or other change to pricing.

You are requested to respond to this BAFO request by submitting a written, sealed "Best and Final Offer" **BY 2:00 PM CENTRAL TIME ON WEDNESDAY, MAY 14, 2014** to:

Attention: Roy Burgess
Division of Purchasing and Materials Management
301 West High Street, Truman Building, Room 630
Jefferson City, MO 65101

The outside of the packet containing the BAFO response needs to state, "BAFO for B2Z14034" on the lower left corner. Please include the original plus seven copies (for a total of eight documents) of your response. Faxed or e-mailed responses are not acceptable.

You are reminded that pursuant to section 610.021, RSMo, proposal documents including any best and final offer documents are considered closed records and shall not be divulged in any manner until after a contract is executed or all proposals are rejected. Furthermore, you and your agents (including subcontractors, employees, consultants, or anyone else acting on their behalf) must direct all questions or comments regarding the RFP, the evaluation, etc. to me, as the buyer of record. Neither you nor your agents may contact any other state employee regarding any of these matters during the negotiation and evaluation process. Inappropriate contacts or release of information about your proposal or BAFO are grounds for suspension and/or exclusion from specific procurements.

If you have any questions regarding this BAFO request, please contact me at (573) 751-1692 or e-mail me at roy.burgess@oa.mo.gov. I sincerely appreciate your efforts in working with the State of Missouri to ensure a thorough evaluation of your proposal.

Sincerely,

Roy Burgess, Buyer

BEST AND FINAL OFFER REQUEST LIST

BAFO NO. 003 FOR RFP B2Z14034

1. IDENTIFIED DEFICIENCIES AND AREAS OF CLARIFICATION:

1.1 Keefe's proposal response to RFP paragraph 2.1.6 states in part, *"Keefe's proposal allows for senders to send messages for FREE and will NOT require the purchase of any credits. The required credits per message will be set at zero (0) credits allowing users to send as many messages as they wish without any cost."*

RFP paragraph 2.3.1 states, *"The contractor's application shall allow the customer to access a website through which electronic mail (e-mail) using plain text may be sent to any offender residing in a state agency institution. The e-mail shall not allow any attachments. Unless otherwise specified by the state agency, the electronic mail services shall be inbound only."*

Keefe must clarify their system shall only refer to e-mail and not credits.

1.2 Keefe's proposal response includes in Attachment C, copies of audited financials materials and in Attachment D, copies of fraud prevention materials with the statement, *"Keefe would like to identify this material as confidential proprietary information and invoke protection for the documents from disclosure pursuant to Missouri Revised Code 610.021."*

However, the State of Missouri does not consider the material to be confidential pursuant to section 610.021 RSMo as specified in RFP paragraph 4.1.5. Consequently unless Keefe can provide adequate explanation of what qualifies the material to be held as confidential pursuant to the provisions of section 610.021 RSMo, then pursuant to RFP paragraph 4.1.5, Keefe's entire proposal will be considered an open record. If Keefe disagrees with the state's final decision that a particular document is an open record and not confidential as they indicated in their proposal, Keefe may request the RFP proposal to be withdrawn due to confidentiality issues and open records.

2. OFFEROR RESPONSE TO CHANGED REQUIREMENTS:

2.1 The enclosed BAFO contains additional revisions deemed necessary as a result of the responses received. As a result of the revisions, the offeror shall acknowledge compliance with all requirement changes in the accompanying RFP attachment (as revised by this BAFO request), submit any response revisions that are necessitated by the requirement changes, and submit pricing reflecting the revisions to the RFP. The offeror may change, add information, and/or modify any part of their response.

The offeror's response to this Best and Final Offer must meet full compliance with the mandatory requirements, terms, condition, and provisions of the RFP. Failure to do so will result in rejection of the offeror's proposal.

Dear Mr. Kruse:

In accordance with paragraph 4.3.3 of RFP B2Z14034 for Offender Deposit, E-Mail, Integrated Security for the Missouri Department of Corrections, this letter shall constitute an official request by the State of Missouri to enter into competitive negotiations with your company. Included with this letter are two attachments.

The first attachment is the Best and Final Offer (BAFO) Request List and it includes a listing of areas identified in your proposal as concerns, areas requiring clarifications, and areas of deficiency which may not comply with the requirements of the RFP. The list also includes a request for specific responses to identified RFP paragraphs.

The second attachment is a complete copy of the RFP, including revisions to the RFP as a result of the BAFO. It includes a Best and Final Offer (BAFO) Form as the cover page.

Your detailed BAFO response needs to include the BAFO Form, completed and signed by an authorized representative of your organization. In addition, your detailed BAFO response should address each area identified on the BAFO Request List using the same numbering outline as the list. **However, please be advised that it is not necessary for you to resubmit your entire proposal. Only the signed BAFO Form, your response to the BAFO Response List, and any portions of your proposal that are being revised as a result of this request for a Best and Final Offer need to be submitted.**

In your response to this Best and Final Offer, you may make any modification, addition, or deletion deemed necessary to your proposal. However, please understand that the State of Missouri is under no obligation to advise you of concerns regarding your proposal and makes no claim related thereto. Your response to this BAFO request is your final opportunity to ensure that (1) all mandatory requirements of the RFP have been met, (2) all RFP requirements are adequately described since all areas of the proposal are subject to evaluation, and (3) this is your best offer, including a reduction or other change to pricing.

You are requested to respond to this BAFO request by submitting a written, sealed "Best and Final Offer" **BY 2:00 PM CENTRAL TIME ON FRIDAY, MAY 2, 2014** to:

Attention: Roy Burgess
Division of Purchasing and Materials Management
301 West High Street, Truman Building, Room 630
Jefferson City, MO 65101

The outside of the packet containing the BAFO response needs to state, "BAFO for B2Z14034" on the lower left corner. Please include the original plus seven copies (for a total of eight documents) of your response. Faxed or e-mailed responses are not acceptable.

You are reminded that pursuant to section 610.021, RSMo, proposal documents including any best and final offer documents are considered closed records and shall not be divulged in any manner until after a contract is executed or all proposals are rejected. Furthermore, you and your agents (including subcontractors, employees, consultants, or anyone else acting on their behalf) must direct all questions or comments regarding the RFP, the evaluation, etc. to me, as the buyer of record. Neither you nor your agents may contact any other state employee regarding any of these matters during the negotiation and evaluation process. Inappropriate contacts or release of information about your proposal or BAFO are grounds for suspension and/or exclusion from specific procurements.

If you have any questions regarding this BAFO request, please contact me at (573) 751-1692 or e-mail me at roy.burgess@oa.mo.gov. I sincerely appreciate your efforts in working with the State of Missouri to ensure a thorough evaluation of your proposal.

Sincerely,

Roy Burgess, Buyer

BEST AND FINAL OFFER REQUEST LIST

BAFO NO. 001 FOR RFP B2Z14034

1. IDENTIFIED DEFICIENCIES AND AREAS OF CLARIFICATION:

1.1 Keefe's proposal response to RFP paragraph 2.1.6 states in part, *"Keefe's proposal allows for senders to send messages for FREE and will NOT require the purchase of any credits. The required credits per message will be set at zero (0) credits allowing users to send as many messages as they wish without any cost."*

RFP paragraph 2.3.1 states, *"The contractor's application shall allow the customer to access a website through which electronic mail (e-mail) using plain text may be sent to any offender residing in a state agency institution. The e-mail shall not allow any attachments. Unless otherwise specified by the state agency, the electronic mail services shall be inbound only."*

Keefe must clarify their system shall only refer to e-mail and not credits.

1.2 Keefe's proposal response includes in Attachment C, copies of audited financials materials and in Attachment D, copies of fraud prevention materials with the statement, *"Keefe would like to identify this material as confidential proprietary information and invoke protection for the documents from disclosure pursuant to Missouri Revised Code 610.021."*

However, the State of Missouri does not consider the material to be confidential pursuant to section 610.021 RSMo as specified in RFP paragraph 4.1.5. Consequently unless Keefe can provide adequate explanation of what qualifies the material to be held as confidential pursuant to the provisions of section 610.021 RSMo, then pursuant to RFP paragraph 4.1.5, Keefe's entire proposal will be considered an open record. If Keefe disagrees with the state's final decision that a particular document is an open record and not confidential as they indicated in their proposal, Keefe may request the RFP proposal to be withdrawn due to confidentiality issues and open records.

2. OFFEROR RESPONSE TO CHANGED REQUIREMENTS:

2.1 The enclosed BAFO contains additional revisions deemed necessary as a result of the responses received. As a result of the revisions, the offeror shall acknowledge compliance with all requirement changes in the accompanying RFP attachment (as revised by this BAFO request), submit any response revisions that are necessitated by the requirement changes, and submit pricing reflecting the revisions to the RFP. The offeror may change, add information, and/or modify any part of their response.

The offeror's response to this Best and Final Offer must meet full compliance with the mandatory requirements, terms, condition, and provisions of the RFP. Failure to do so will result in rejection of the offeror's proposal.

EXECUTIVE SUMMARY

Keefe would to thank the Missouri Department of Corrections for the opportunity to submit a response to ***RFP# B2Z14034 for Offender Deposits, E-Mail and Integrated Security***.

Keefe proposes to offer its Secure Deposits™, Secure Mail™ and Integrated Security services, ***in partnership with Guarded Exchange's* Integrated Security** solution, at **no cost** to the Missouri DOC. Keefe's proposed services, technology and equipment provide a turnkey system that exceeds the requirements of the DOC as outlined in the RFP.

Keefe is well experienced in handling a large volume of trust fund deposits for the correctional market. Keefe currently processes over 3.3 million transactions per year while providing this service to over 275 County facilities and 13 State Department of Corrections, encompassing over 630,000 inmates. Keefe has been providing deposit services within the state of Missouri since 2007 and is a ***current provider*** for the Missouri Department of Corrections. Additionally, Keefe currently provides these services to 20 County Jails throughout the State of Missouri including: St. Louis City, St. Louis County, Jackson County, and Jefferson County.

As a current provider, Keefe's ***Secure Deposits*** service will continue to provide family and friends a quick, efficient and easy to access option of sending funds to offenders incarcerated within the DOC. Our system allows deposits to be made using credit or debit cards via our 24/7 toll free friendly Customer Service Agents, easy to use Access Corrections website or by cash at our Nationwide Network of Walk-in Retail locations.

Keefe's Proven ***Secure Mail*** program has been operating since 2009 and is currently deployed in ***seven (7)*** Department of Corrections including: AR DOC, MA DOC, MS DOC, NH DOC, OR DOC, VA DOC (Green Rock Correctional) and WY DOC as well as many County Jails across the country. Keefe has successfully delivered hundreds of thousands of secure messages to inmates nationwide. Keefe understands the importance of inmate's having constant communication with their loved ones and the importance of easing the financial burden that this communication can have on both the inmate and loved one; because of this, Keefe is offering its Secure Mail service for ***FREE*** to those users sending messages to Missouri DOC inmates.

Keefe will also combine our proven ***Integrated Security*** software and dedicated team of ***twelve (12)*** investigators with ***Guarded Exchange's Integrated Security*** systems already in place at Missouri DOC to provide the most comprehensive Investigative Solution in the Corrections Industry. Keefe's Investigation Team reviews approximately ***27% of payment transactions for suspicious activity*** using our proprietary software combined with industry leading intelligence software providers connected to public data bases. The combined software and data bases allow our investigators real-time access to validate user's identities, detect fraud and uncover illegal inmate activities.

Keefe is also committed to the highest standards of anti-money laundering compliance and requires management and employees to adhere to these standards. It is the policy of Keefe to actively prevent money laundering and any activity that facilitates the funding of terrorist or criminal activities by complying with all the applicable laws and regulations, including, but not limited to, the Bank Secrecy Act (BSA), Office of Foreign Asset Control (OFAC) and USA PATRIOT Act .

Companies engaging in the business of money transmission in the State of Missouri are required by law to possess a Money Transmitter License. Keefe has met the requirements of law and is licensed to engage in the business of money transmission within the State of Missouri. Please find enclosed a copy of Keefe's Missouri Money Transmitter License.

The Keefe Group is owned by lifelong Missouri residents and business owners and is headquartered in the State of Missouri in St. Louis. Between Keefe Group and our parent company Enterprise Rent-A-Car we have over 5,500 full-time Missouri employees. The Keefe Group has a substantial economic impact on the State of Missouri and, ***as a Missouri company for nearly 40 years***; The Keefe Group has a vested interest in the wellbeing and success of their home state. The Keefe Group has been a long time partner and supplier of commissary goods for the Missouri DOC and is also a ***current provider for deposit services***. We look forward to the continuance and possible expansion of this long standing partnership.

EXPERIENCE OF ORGANIZATION AND EXPERTISE OF PERSONNEL

The evaluation of the offeror's experience of organization and expertise of personnel shall be subjective based on the ability of the offeror to perform the requirements stated herein. Therefore, the offeror should present detailed information regarding the organization's experience and expertise of proposed personnel. The following information should be provided by the offeror in order to assist the State of Missouri in evaluation of the offeror's experience and expertise of personnel. The state reserves the right to use this information, including information gained from any other source, in the evaluation process.

B.1 EXPERIENCE OF ORGANIZATION:

1) The offeror should describe the background and history in providing the requirements herein.

Keefe Response: Please see below for Keefe's company background and history in providing the requirements detailed in **RFP #B2Z14034**:

Keefe is well experienced in handling a large volume of trust fund deposits for the correctional market. Keefe currently processes over 3.3 million transactions per year while providing this service to over 275 County facilities and ***thirteen (13)*** State Departments of Correction, encompassing over 630,000 inmates. Keefe has been providing deposit services within the state of Missouri since 2007 and is a ***current provider*** for the Missouri DOC.

Additionally, Keefe's Proven ***Secure Mail*** program has been operating since 2009 and is currently deployed in **seven (7)** Department of Corrections including: AR DOC, MA DOC, MS DOC, NH DOC, OR DOC, VA DOC (Green Rock Correctional) and WY DOC as well as many County Jails across the country. Keefe has successfully delivered hundreds of thousands of secure messages to inmates. We understand the DOC is just requesting 1-way print and deliver Email services but if the DOC desires our ***Secure Mail*** program can also work in conjunction with our **MAXXpro4** MP4 player, allowing inmates to receive and respond to electronic messages and photos directly from their player away from the kiosk (after being approved by facility staff). This exclusive feature maximizes the program's efficiency by reducing the number of messages that need to be physically printed and distributed by DOC staff.

Company Overview

Keefe Group is comprised of ***Keefe Supply Company, Keefe Commissary Network, Access Securepak, Access Corrections, ICSolutions*** and ***Advanced Technologies Group***.

In 1975, ***Keefe Supply Company*** entered the correctional market by supplying single-serve coffee packets to a Florida prison. Keefe understood the need for improvement in correctional product offerings and pioneered the packaging evolution of products sold through correctional commissaries. Keefe began packaging instant coffee and drink mixes in sealed paper pouches and was the first to offer pouch-packaged seafood, eliminating the security threat associated with metal and glass containers. Keefe has ***seventeen (17) distribution centers*** totaling 1,439,000 square feet, shipping over 25 million pounds of inventory per month and carrying over $80 million in inventory daily.

Keefe Commissary Network (KCN) was established in 1993 to provide outsourced/ privatized commissary service to prisons and jails nationwide. KCN was a direct result of listening to the changing needs of our

customers and quickly became the largest supplier of privatized commissary operations in the nation. KCN writes and supports all of their own software and provides live technical customer service 24/7/365. KCN is currently contracted with 821 correctional facilities totaling over 535,000 inmates nationwide, and provides commissary service to ***thirteen (13)*** of the ***fifteen (15) privatized DOCs***.

Access Securepak, the most comprehensive custom package program in the correctional industry, conducted its first family-ordered inmate package program for the North Carolina DOC in 1997, offering a better alternative than family and friends sending packages directly to the facilities. Securepak allows friends and family to order packages from a facility-approved menu via toll-free number, secure website, mail or fax. Our proprietary software processes orders and enforces facility product, inmate status, package weight, spending and/or order frequency limits. All orders are fulfilled in our secure processing centers, eliminating contraband and greatly reducing the time and labor required to process packages. Currently, Access Securepak has over ***one hundred and twenty-five (125)*** individual active programs spanning the entire country, and is the exclusive provider to ***eighteen (18) statewide DOCs***.

Access Corrections was formed in 2006 in response to the growing technology offerings of KCN. Access Corrections is committed to developing cutting-edge services and technologies to make the corrections industry more efficient and secure. We're leading the way on many fronts by streamlining how correctional facilities manage and process the flow of information, financial transactions and entertainment for inmates and their families. Access Corrections services include: inmate deposits, electronic mail, photo mail, MP3 program, debit release cards, video visitation and Data Detective software. Access Corrections is contracted with many states including ***fifteen (15) DOCs*** for MP3 Music, ***thirteen (13) DOCs*** for deposit services and ***six (6) DOCs*** for electronic messaging.

Inmate Calling Solutions (ICSolutions) has been a leading provider of innovative telecommunications products and technologies since 2002. Keefe Response: Please see below for all requested personnel information:

John Vitale
Vice President/Technical Services – 25 Years
Masters of Accounting – University of Missouri, St. Louis, 1996

John began his career at parent company, Enterprise Holdings, in 1988 where he managed PC systems activity. In 1995, he moved to KCN and eventually headed up the technology division as Vice President of Technical Services.

John is one of the original architects of KCN's KeepTrak software system. He also, led the Technical Services division through major upgrades and rollouts of KCN software systems. He established customer support to over 500 accounts, including Call Center and Project Management, which has responsibilities for over 1,500,000 inmate orders per month.

Currently, John provides consulting services throughout the technology area, specializing in large-scale implementations and teaming with customers, business partners and staff in areas relating to hosting, statewide deployments and software strategies.

For over 20 years, John has been providing these services to the corrections industry: Oversight of Master Project leadership, infrastructure and Central Production Services, Quality Assurance, Implementation and Ongoing Support. He has been involved in MP3 startups as well as ongoing support at Keefe's eleven (11) statewide DOC programs, twelve (12) statewide deposit programs and our electronic messaging programs.

Steve Busch
Group Vice President, Midwest Region – 30 years
Bachelor of Arts – Economics, University of Missouri – Saint Louis, 1982

Steve began his career in 1983 working for our parent company, Enterprise Holdings, in car rental. After one year, he was moved to Keefe Supply as an Account Manager responsible for product sales to correctional facilities nationwide. He continued to grow within Keefe and held numerous positions over the years including: Senior Account Manager, Area Sales Manager, Regional Sales Manager, Regional Vice President for the Midwest,

Vice President of Sales and Marketing and was promoted to his current position as the Midwest Group Vice President in 2001.

Steve currently oversees and manages Keefe Group's St. Louis and Denver distribution centers, which service 16 states, as well as is involved with administration, sales and marketing.

Steve Kruse
Regional Manager, Keefe Commissary Network – 18 years

Steve started with KCN in 1995 when he joined forces with one other Keefe employee to form our Technical Services Department. Steve brought with him over 7 years of network administration experience. In 1999 he was promoted to Account Manager where he managed the states of Arkansas, Kansas, Oklahoma and Kentucky over the course of his time in this position.

In January of 2010, Steve returned to his company roots when he was promoted to KCN Regional Manager for the Midwest region, consisting of 16 states. He works hand-in-hand with the sales staff to promote new business opportunities as well as works with operational staff to ensure the overall satisfaction of our current customer base.

Mike Manning
Vice President/ Access Corrections – 10 years
Bachelor of Arts – Marketing, University of Central Florida, 1994

Mike joined the Centric Group in 2003 with our sister company, TRG, as Vice President of Sales. With over 18 years of Consumer Goods and Industry experience, Mike managed two major product lines for TRG before moving over to Keefe Group as the Vice President of Access Corrections in 2009.

In his current role as Vice President of Access Corrections, Mike has provided oversight for our Secure Banking Operations, Investigation Team, Anti-Money Laundering compliance, Secure Mail™, Secure Photo and MP4 program, as well as, oversight at the Master Project level and acts as the escalation point for Department directorship. NOTE: FAILURE TO PROVIDE ADEQUATE INFORMATION TO COMPLETELY ADDRESS THE SPECIFIED EVALUATION CRITERIA WILL AT LEAST RESULT IN MINIMAL SUBJECTIVE CONSIDERATION AND MAY RESULT IN REJECTION OF THE OFFEROR'S PROPOSAL.

EXHIBIT C

FUNCTIONAL AND TECHNICAL CAPABILITIES, AND METHOD OF PERFORMANCE

The evaluation of the offeror's proposed functional and technical capabilities, and method of performance shall be subjective based on the requirements stated herein. Therefore, the offeror should present detailed information regarding the proposed functional and technical capabilities and their proposed method of performance. The State of Missouri reserves the right to use this information, including information gained from any other source, in the overall evaluation process.

It is the offeror's responsibility to make sure all software and services proposed are adequately described. It should not be assumed that the evaluator has specific knowledge of the products and services proposed; however, the evaluator does have sufficient technical background to conduct an evaluation when presented complete information.

C.1 In presenting the functionality and technical capabilities, and method of performance, the offeror should complete the following matrix by responding in the column marked "Comments" by writing a description of how, when, by whom, where, etc., the requirements that will be satisfied and otherwise detail the offeror's understanding of the requirements and ability to successfully perform.

All deposit methods will be batched and sent to the facility in one file, making it easier and more efficient for the facility to monitor all deposits. **Electronic Mail Services for Offender Mail** ***Secure Mail*** service by Access Corrections allows friends and family to log into our secure website and create an account. Similar to a Yahoo or Hotmail account, the account is free and the user is able to log-in and view their sent messages. This is the same website that is currently being used by those individuals utilizing our Secure Deposit services today. Keefe's ***Secure Mail*** program is proven and is currently deployed at the following State DOCs: 1. Arkansa DOC – 13,000 inmates 2. Massachusetts DOC (South Middlesex) – 10,500 inmates 3. Mississippi DOC – 16,000 inmates 4. New Hampshire – 2,400 inmates 5. Oregon DOC – 15,000 inmates 6. Virginia DOC (Green Rock Correctional) – 32,000 inmates 7. Wyoming DOC – 2,200 inmates

RFP Paragraph	Requirement	Comments
		<u>Keefe is offering Secure Mail messages *Free* to all MO DOC users!</u> Keefe's ***Secure Mail*** service will be provided for ***FREE*** to those users sending messages to Missouri DOC inmates. The Customer can log into our secure website www.accesscorrections.com and create an account. Similar to a Yahoo or Hotmail account, the account is free to the Customer. Once an account has been established, the Customer is able to log-in using our secure website and view their individual mailbox which includes all received messages and archived sent messages.  When a customer is logged in to our secure website, they can edit their profile and account information. The secure website is available in both English and Spanish. Users can select English or Spanish by clicking the language they want in the upper right corner of the webpage. They will also have the option to select if they would like to be notified when receiving a message and if they would like to be notified if one of their messages is rejected.

RFP Paragraph	Requirement	Comments
		 Once a customer has their account set up, they can then purchase message plans, which provide discounted message and/or photo credits, or individual credits to allow them to send messages/photos to the inmate. <u>However, Keefe understands the importance of inmate's having constant communication with their loved ones and the importance of easing the financial burden that this communication can have on both the inmate and loved one; because of this, Keefe is offering its Secure Mail service for ***FREE*** to those users sending messages to Missouri DOC inmates for the life of the contract.</u> Customers will be able to access their inbox and have the ability to purchase message plans 24/7/365. No need to buy stamps or message credits just add a receiptant and you are ready to send a message. The customer can easilty add a recipient in three easy steps:

RFP Paragraph	Requirement	Comments
		Step 1: Select a State **Step 2: Select a Facility** **Step 3: Search for inmate** The customer can search for the inmate using the inmate's number or by the inmate's last name. Once the search results are populated, the customer selects the recipient he/she was looking for and adds them to their "My Recipient" list.  Once the recipient has been added, the customer will be able to view them in the "My Recipients" page. This page will show the customer the recipient's Offender number, Name, Birth Date, and whether they are sharing their credits with that recipient. This page will also show the customer what services the inmate can receive (Secure mail, Secure photo mail and delivery to the inmate's MP4 where applicable). This will be displayed by the icons next to the inmate number.

RFP Paragraph	Requirement	Comments
		Sending a Message Once the recipient has been added, the customer can then compose and send them a message. Messages can only be composed using plain text. There is no option for font or color changes (i.e. no bolding, no highlight, no italicizing, no special characters, etc.). This prevents any secret messages being hidden within the message. **Writing Messages in Spanish** Customers also have the option of typing their message in English or Spanish. If they choose to write their message in Spanish, when the message is viewed in the *Review Messages* queue on the Facility website a translation of the message will be displayed along with the original message. The translated message will also pass through Keefe's word watch software and highlight any flagged words.  **Sending a Picture Message (if allowed by DOC- this feature can be turned off)** Keefe's Secure Mail program does not allow any type of attachments to be sent with a message. All pictures are sent as a separate message. This prevents a picture attachment accidentally being overlooked and approved without review. With Keefe's program, the picture will come separate from the message so one can be rejected without affecting the other. By allowing picture messages, the facility will not need to worry about the costly and time consuming process of returning an unapproved photo and it will help to eliminate contraband.

RFP Paragraph	Requirement	Comments
		Facility Management Keefe has created a specific facility website for facility staff to view and approve/deny messages and photos. Authorized facility staff will have access to log-in to the website and view an inbox containing all pending messages and photos for that facility. The authorized user is able to sort the messages by the: To, From or Subject fields and will be able to open each message to review for content. Keefe will provide a PC and Printer at each facility to allow facility staff to access the facility management website. The PC's would connect to the facility website using the DOC's internet connection. The facility will be able to set up multiple user IDs for facility staff to log on to the facility website to review messages. The facility will also have the ability to set-up different users with different privileges and control levels. Keefe will also have the ability to track and monitor the activities of the facility staff while logged on to the secure facility website. This will allow the facility to monitor who approved and denied each message.

RFP Paragraph	Requirement	Comments
		 Keefe's ***Secure Mail*** system will be programed for 1-way print and deliver However, if the state would so desire, our program can also provide two way email access through our ***MAXXpro4*** MP4 player. <u>**Word Watch Filter Software**</u> Sent messages will pass through our ***Word Watch*** filter software that will scan each message for words or phrases that are predefined by each facility. Keefe has a complete database of pre-existing words and phrases that we will provide to the facility. However, our ***Word Watch*** software is completely customizable by each facility allowing them to enter words and phrases that are specific to their inmate population. Authorized staff is able to add or remove specific words and phrases as deemed necessary as well as change point levels they wish to assign to certain words. Once the ***Word Watch*** scan is complete, each message is scored and displayed using a stop light tree system making it very easy for staff to see what

Once the message has been opened up, all words or phrases that have been flagged by the ***Word Watch*** software will automatically be highlighted for quick review. The facility staff can then select whether it is approved or rejected. If approved, the message will be printed for delivery to the inmate. All messages will be stored indefinitely so if they are ever needed for later investigative purposes authorized staff can easily recall messages and photos in-real time from the Keefe provided computer at each facility or any computer with internet access. Messages classified as "yellow" can be reviewed by facility staff for approval and all "red" messages can be denied. This system is completely customizable to each facility, based upon the preferred approval method. **Auto Escalate Feature** Keefe also offers an "Auto Escalate" feature. This allows for messages sent to specified inmates or messages from specified customers to automatically escalate from mail room staff to a particular investigator or facility staff. This allows investigators to increase the depth of investigation of a specific inmate or customer and limit the ability of only certain staff to see these messages. The "Auto Escalate" feature can be setup three (3) different ways: • When a message hits a certain point value • When it is a message from a specified customer • When it is a message to a specified inmate **Integrated Security/Investigation Application** In order to control fraud and illegal activity inside and outside of facilities, Keefe has a dedicated team of ***twelve (12)*** investigators located at our corporate headquarters in St. Louis, MO. Keefe's Investigation Team reviews aproximately ***27% of the payment transactions for suspicious activities***. The Investigation Team uses our proprietary software combined with industry leading intelligence software providers that are connected to public data bases. ***In addition to working directly with the DOC's Investigators, Keefe will integrate our data and share our Investigative results with Guarded Exchange to provide the most comprehensive Investigative Solution in the Corrections Industry.*** Guarded Exchange will integrate financial transaction data and email data from Keefe into its proprietary Data Profiling Software (ICONS). Results of data analysis will be made available to the State for investigation by MO DOC Investigators. ***Please see Attachment D – Fraud Prevention document for further details.***

		As an additional feature and another way for the facility to monitor its services, Keefe's ***Data Detective*** is a data mining solution specifically designed to work *in conjunction with our services.* This tool is designed with the investigative nature of the corrections market in mind. Authorized staff will be able to search varying degrees of separation in order to establish links from inmate to inmate or end user to end user. Some of the features are listed below: • Facility staff can explore important data using a dynamic visual map • The unique design of the visual map allows investigators to quickly find connections and patterns • Web based program so authorized facility staff are able to view from their own desktop computer The Facility will have access to reports ***24/7 in real time*** via the facility website. These reports can be searched by date range and include all transaction information. This provides the Facility with the sender's address as well as varying degrees of separation in order to establish links from inmate to inmate or end user to end user. The email reports can also be exported into Excel or as a PDF. See below screen shot of the ***Data Detective***. It shows the sender "Michael Miller", his email address, street address, total messages sent and total deposits made. The software then establishes relationships with other inmates he has deposited funds to or sent messages.

		MP4 Program While we know it is the DOC's desire to offer print and deliver only; however, if the DOC should eventually desire two way email communication, Keefe can offer its MP4 Program as a way to provide the most efficient method to accomplish this. Through Keefe's MP4 Program, the DOC can provide two way communication without utilizing the current Inmate Kiosks. All reading and composing of messages will be downloaded directly on the MAXXpro4 MP4 player away from the kiosk. *Additionally, this will reduce the amount of staff time needed to print and deliver messages as messages will now be delivered electronically directly to the player.* The Keefe MP4 Music Program provides a secure method by which users can browse, select and download digital content to their personal media player. The program consists of our MAXXpro4 MP4 portable media player, kiosks for downloading digital media and other content, and a private satellite delivery system. The MP4 music catalog has millions of individual songs and is one of the largest MP4 music catalogs in the country. In addition to music, this program also supports approved electronic messaging/photos, games and videos. Our MP4 program runs on our own network and is the only proven correctional program currently ***operating in 15 state-wide DOC's which has delivered millions of songs successfully to thousands of inmates.*** With Keefe's Maxxpro4, approved messages and photos are downloaded to the player be viewed and replied to directly on the device away from the kiosk. This option provides the facility the most efficient and flexible electronic messaging program available. This will allow two way communication without causing crowding and extra time on the current inmate kiosks. Keefe will install a separate Music Kiosk in a central location that will allow for up to 4 simultaneous player connections. The MP4 player and program can allow electronic messages and photos to be sent from family/friends and once approved by the facility; the message/photo is automatically routed to the system to be downloaded onto the recipient inmate's MP4 player.

RFP Paragraph	Requirement	Comments
		The approval process of messages and photos sent to the player is exactly as described earlier. Our system will automatically know if an inmate owns a player. When a message or photo is approved, they are automatically sent to the music manager kiosk for automatic download by the receiving inmate upon the next connection to the kiosk. Any messages denied will not be transferred to the kiosk for download. The facility management website will retain all messages (both approved and denied), for future recall/investigation by the facility. The MP4 player has specific folders called "Mailbox" and "Photo Album" where all approved messages and photos are uploaded and stored for display and recall by the inmate. Upon the facility's approval, Keefe can also provide the option of allowing inmates to reply to messages. The reply message will be created by the inmate directly on the player away from any kiosk. Upon connection to the kiosk, the message is sent for facility review. As with incoming messages, the facility reviews the inmate-composed message to determine whether or not the message is approved for distribution. Upon approval by the facility, the Keefe system will send the electronic message to the original sender. **Edge 7" Tablet** In the near future, Keefe will be offering our new ***7" EDGE Tablet***. The ***EDGE Tablet*** will include a number of new self-service inmate applications. The tablet will also share applications that are available on thousands of our ***EDGE Inmate Housing Unit Kiosks*** located in correctional facilities nationwide. By enabling the mobility of self-service applications, Keefe minimizes the need for inmates to congregate around housing unit kiosks. Our advanced ***EDGE Tablet*** will operate in off-line mode until synced at either the ***EDGE Kiosk*** or ***Media Kiosk***. In addition to the current ***MP4 Player*** offerings of music, electronic messaging, photos and educational videos, the new ***EDGE Tablet*** will also feature: ***Movies, TV Shows, Games, Educational Content, Commissary Ordering*** and additional ***Facility Content***. Please see below for an overview of the new ***EDGE Tablet***.

All electronic mail sent through Keefe's Secure Mail service will be archived indefinitely and available for retrieval and printing by authorized state agency staff through our secure website. The archived mail will be retained per MO DOC's Records Retention requirements.
2.3.10	The contractor's application shall review all electronic mail sent against a state agency provided predetermined list of watchwords and phrases ("watch list").	***Keefe Response:*** Keefe has read, understands and will adhere. Sent messages will pass through our **Word Watch** software that will scan each message for words or phrases that are predefined by the MO DOC. Keefe has a complete database of pre-existing words and phrases that we will provide to the Agency. However, our **Word Watch** software is completely customizable allowing authorized MO DOC staff members to enter words and phrases that are specific to their inmate population.
2.3.10 (a)	The application shall allow state agency staff to make additions and deletions to the watch list.	***Keefe Response:*** Keefe has read, understands and will adhere. Authorized staff members are able to add or remove specific words and phrases as deemed necessary as well as change point levels they wish to assign to certain words.
2.3.10 (b)	The application shall hold any electronic mail item found to contain a word or phrase located on the watch list and be flagged as such. These items shall be held until a review by the state agency is conducted and a determination of disposition is found.	***Keefe Response:*** Keefe has read, understands and will adhere. Keefe's **Word Watch** software will detect words and phrases in both incoming and outgoing messages. Once the **Word Watch** scan is complete, each message is scored and displayed using a stop light tree system making it very easy for staff to see what messages they need to focus on: **GREEN** = no words or phrases found YELLOW = some words and phrases found **RED** = significant number of words and phrases found

RFP Paragraph	Requirement	Comments
		 After the message has passed through the **Word Watch** filter system, it can then be clicked on for further review. Once the message has been opened up, all words or phrases that have been flagged by the **Word Watch** software will automatically be highlighted for quick review. The facility staff can then select whether it is approved or rejected. If approved, the message will be printed for delivery to the inmate. All messages will be stored indefinitely so if they are ever needed for later investigative purposes authorized staff can easily recall messages & photos in-real time from any computer with internet access.

John Messages that are filtered and defined as "green" can be sent directly to the printer (if the facility chooses this option or they can be manually approved like all other messages). Messages classified as "yellow" can be reviewed by facility staff for approval and all "red" messages can be denied. This system is completely customizable to each facility, based upon the preferred approval method.
2.3.10 (c)	The application shall allow the state agency to accept or reject any electronic mail that contains any watchwords or phrases along with any questionable or objectionable content.	***Keefe Response:*** Keefe has read, understands and will adhere. If a message is denied by the MO DOC, the facility staff can select the reason why it was rejected from a drop down menu.

2.3.11	The contractor's application shall allow state agency staff to search the electronic mail for key words independent of the automated watchword process from the contractor's integrated website.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.3.12	The contractor's application shall provide offender information in the header section of the electronic message to enable the state agency to fold and staple the contents with the information on the header visible but without the contents of the message visible.	***Keefe Response:*** Keefe has read, understands and will adhere. Once the sender has completed the message it automatically passes through the **Word Watch** software filter process that scans each message for words and phrases that are predefined by the facility and then is placed in the facility's inbox on Keefe's secure website. All incoming messages remain in pending status until authorized staff denies or approves it for printing. Once approved, the message will print out in the facility mailroom on a Keefe supplied printer. The header of the printout will contain offender information which will enable the MO DOC to fold and staple the contents, keeping only the header visible for easy distribution. 123521 - JOHN JOHNSON **From:** John Miller **Sent:** 12/10/2010 8:34 AM CDT **Subject:** Hi
2.3.13	The contractor shall install and provide all hardware, software, peripherals, and supplies necessary for the successful operation of the e-mail application, both at the inception of the contract period and at all times thereafter, to include one (1) new desktop computer, one (1) new monitor, and one (1) new printer for each of the twenty-one (21) institutions listed on Attachment 1.	***Keefe Response:*** Keefe has read, understands and will adhere. 2.5.1	Access to the application shall require state agency staff to log into the contractor's application with a unique sign-on and user defined password.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.5.1 (a)	The assignment of, deletion of, and changes to user sign-ons, and the assignment of initial passwords shall be centrally coordinated by the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.5.1 (b)	Users shall have the ability to change their password at any time.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.5.1 (c)	The application shall allow for the limiting of access by user sign-on, to one, some, or all of the applications. For instance, a user may be designated to have access only to the offender email portion of the application.	***Keefe Response:*** Keefe has read, understands and will adhere. The secure facility website is https://www.accesscorrections.com/management. Each Agency staff user will have a separate log-in and privileges assigned by an Agency administrator. The privileges include the ability to only allow access to one specific service (i.e. Secure Mail only). The facility will be able to set up multiple user ids for facility staff to log on to the facility website to review messages. The facility will also have the ability to set-up different users with different privileges and control levels. The Keefe software will also have the ability to track and monitor the activities of the facility staff while logged on to the secure facility website. This will allow the facility to monitor who approved and denied each message.
2.5.2	Access to the application shall be restricted by use of a LAN to LAN VPN tunnel. This tunnel shall provide encryption of the WAN traffic. Use of this application shall be restricted to a list of state authorized computers.	***Keefe Response:*** The Secure Deposits and Secure Mail facility manager applications are multi-tenant applications and are entirely web-based. The web-site is limited to port 443 encrypted communications. The state may use

RFP Paragraph	Requirement	Comments
	The contractor shall support the ability of the state agency to specify which computers can access the application and only permit those computer access to the application.	a variety of methods to limit access to the web-site to certain state authorized computers. The LAN to LAN VPN would not necessarily limit access to the web-site unless the URL were filtered and restricted for all other desktop systems within the DOC. In that case LAN to LAN VPN would not be necessary to achieve an encrypted tunnel, as the https protocol would achieve that. However, Keefe will implement the LAN to LAN VPN tunnel and terminate Keefe's end solely to the Access Corrections management URL if the state chooses this method.
2.6.1	Upon termination of the contract, the ***State of Missouri e-mail and transaction*** data shall be transferred to the state agency in the format required by the state agency. Once the data has been accepted by the state agency, the contractor shall completely purge and destroy all State of Missouri data from the contractor's system. Furthermore, the contractor shall sign an affidavit that there shall be no copy of the data kept by the contractor.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.6.2	The contractor shall not share the data with a third party without prior knowledge of and approval from the designated state agency point of contact.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.7.1	Section 191.863 of the Revised Statutes of Missouri (RSMo) requires state agencies to make information technologies accessible to individuals with disabilities. The State of Missouri's Information Technology (IT) Accessibility Standards (http://www.oa.mo.gov/itsd/cio/standards/ittechnology.htm) provide direction for complying with RSMo 191.863. All products provided by the contractor shall comply with the applicable accessibility requirements of the Missouri IT Accessibility Standards, unless the contractor's awarded bid response contains specific disclosure of product non-conformance in a Voluntary Product Accessibility Template (VPAT); or other comparable document.	***Keefe Response:*** Keefe has read, understands and will adhere.

RFP Paragraph	Requirement	Comments
2.7.1 (a)	The contractor shall promptly respond to any complaint brought to its attention regarding accessibility of the products provided hereunder that were specified in the contractor's awarded bid response as compliant products. The contractor shall resolve such complaints by bringing the product into compliance with the applicable Missouri IT Accessibility Standards at no additional cost to the State. The contractor shall indemnify and hold harmless the State of Missouri and any Missouri government entity purchasing the contractor's products from any claim arising out of the contractor's failure to comply with the aforementioned requirements.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.7.1 (b)	The contractor must abide by the Missouri Digital Media Developers (DMD) Web Guidelines, which include the mandatory accessibility information for Section 508 and Chapter 191 compliance for any web based systems. Refer to the following web site: http://www.oa.mo.gov/itsd/cio/standards/ittechnology.htm.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.8.1	The contractor shall provide any application modifications or additions necessary to enable the application to operate according to all mandatory functional and technical specifications presented herein and in the RFP Exhibits, at no additional cost to the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.8.2	The contractor shall notify the state agency thirty (30) days prior to any additions, deletions, or changes to their applications.	***Keefe Response:*** Keefe has read, understands and will adhere.

2.9.1	The contractor shall complete the implementation of services within the timeframe specified in the contractor's awarded proposal. Installation must include operation of the software to the satisfaction of the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.9.2	The contractor shall meet with state agency staff in Jefferson City, Missouri, to discuss the implementation of the contractor's application within fifteen (15) calendar days after contract award.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.9.2 (a)	The contractor shall meet with state agency staff on a weekly basis throughout the implementation phase.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.9.2 (b)	If acceptable to the state agency, such meetings may be conducted via telephone call.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.9.2 (c)	The contractor shall bear all costs associated for all meetings.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.10.1	The contractor must provide all initial training required for the successful operation and administration of the solution as requested by the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.10.1 (a)	For the initial contract period, the contractor must provide upon installation, sufficient initial instructor-led training on-site at no additional cost.	***Keefe Response:*** Keefe has read, understands and will adhere.

Requirement	Comments
The initial training must include: 1) Basic training for state agency staff 2) Training materials to include a user manual and any other relevant documentation, such as, but not limited to, technical manuals, error messages and codes, system reference guide, etc. at no additional cost. All documentation must be for the version of the application being provided to the state agency.	***Keefe Response:*** Keefe has read, understands and will adhere.
Initial training for the money transfer shall occur at 2729 Plaza Drive, Jefferson City, Missouri and consist of approximately six (6) employees.	***Keefe Response:*** Keefe has read, understands and will adhere.
Initial training for the e-mail and investigation shall occur at: a. Eastern Region Academy 901 Progress Drive Farmington, MO Approximately 18 employees b. Western Region Academy 902 Edmond St. Joseph, MO Approximately 12 employees c. Central Region Academy 717 Industrial Drive Jefferson City, MO Approximately 20 employees	***Keefe Response:*** Keefe has read, understands and will adhere.
At the state agency's request and at no additional cost, the contractor must offer advanced training in web-based or video format for any upgrades, enhancements, or new releases to the software. The advanced training shall include any necessary training manuals for all staff in attendance.	***Keefe Response:*** Keefe has read, understands and will adhere.

RFP Paragraph	Requirement	Comments
2.11.1	At a minimum, the contractor shall meet with state agency staff on a semiannual basis to discuss performance related components and process improvements.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.11.1 (a)	If acceptable to the state agency, such meetings may be conducted via telephone call.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.11.1 (b)	The contractor shall bear all costs associated with all meetings.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.12.1	The contractor shall have a written disaster recovery plan designed to minimize disruption of services and to protect the state agency's data and records in the event the contractor's system(s) becomes inoperable.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.13.1	At any and all times, the contractor must provide the state agency and any state agency designees, including other state and federal representatives, access to the contractor, the contractor's facilities, any personnel providing services pursuant to the contract, or any other activities of the contractor, pursuant to the contract for purposes of audit and evaluation of the services performed.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.13.1 (a)	The contractor shall produce, upon a forty-eight (48) hour notice and at a location designated by the state agency, all books and records relating to the contract for the purposes of a state agency audit.	***Keefe Response:*** Keefe has read, understands and will adhere.
2.13.1 (b)	The contractor must provide access for audits of the operating systems, procedures, programs, documentation, software packages, facilities and equipment used in support of the contract. 1) The contractor shall provide read-and-copy access to the state agency for all files that are used. Such files shall include, but are not limited to, inventory	***Keefe Response:*** Keefe has read, understands and will adhere.

C.3 The offeror should describe the Missouri economic advantages that will be realized as a result of the offeror performing the required services. The offeror should respond to the following:

a. Description of the proposed services that will be performed and/or the proposed products that will be provided by Missourians and/or Missouri products.

Keefe Response: As a company that is owned by lifelong Missouri residents and business owners and is headquartered in the State of Missouri, all our proposed services will be provided by Missourians. Between the Keefe Group and our parent company, Centric Group, we staff ***over 900 employees in the state of Missouri***. All staff that will be dedicated to the services provided in this contract will be provided by Missourians as well.

Keefe has been providing deposit services within the state of Missouri since 2007 and is a ***current provider*** for Missouri Department of Corrections. Keefe currently provides these services to 20 County Jails throughout the State of Missouri including: St. Louis City, St. Louis County, Jackson County, and Jefferson County.

Additionally, Keefe will be supporting another local Missouri company through our partnership with ***Guarded Exchange***.

b. Description of the economic impact returned to the State of Missouri through tax revenue obligations.

Keefe Response: Keefe Group is owned by lifelong Missouri residents and business owners and is headquartered in the State of Missouri in St. Louis. Between the Keefe Group and our parent company, Centric Group, we staff ***over 900 employees in the state of Missouri***. The Keefe Group has a substanial economic impact on the State of Missouri and, ***as a Missouri company for nearly 40 years***, The Keefe Group has a vested interest in the wellbeing and success of their home state. The Keefe Group has been a long time partner and supplier of commissary goods for the Missouri DOC and is also a ***current provider for deposit services***. We look forward to the continuence and possible expansion of this long standing partnership.

c. Description of the company's economic presence within the State of Missouri (e.g., type of facilities: sales offices; sales outlets; divisions; manufacturing; warehouse; other), including Missouri employee statistics.

Keefe Response: Keefe Group is an affiliate of Enterprise Rent-A-Car. Enterprise, established in 1957, is privately owned by the Taylor family and is headquartered in St. Louis, Missouri. With over 50,000 employees and more than 500,000 cars in the fleet, Enterprise is one of the largest rental car companies in the world. In addition, the Taylor family privately owns Alamo Rent A Car, the third largest rental car agency in the U.S.; and National Car Rental. Enterprise Holdings, Inc. and its rental car companies have their worldwide headquarters in the State of Missouri.

As private owners of The Keefe Group and Enterprise, the Taylor family companies have been a large and consistent employer of Missourians and a valuable contributor to economic growth in the State for nearly six decades. Being allied with this business and the financial resources is a great benefit.

Additionally, Keefe will be supporting another local Missouri company through our partnership with ***Guarded Exchange***.

NOTE: FAILURE TO PROVIDE ADEQUATE INFORMATION TO COMPLETELY ADDRESS THE SPECIFIED EVALUATION CRITERIA WILL AT LEAST RESULT IN MINIMAL SUBJECTIVE CONSIDERATION AND MAY RESULT IN REJECTION OF THE OFFEROR'S PROPOSAL.

AUDITED FINANCIALS

As part of its response to RFP No.B2Z14034, Keefe Commissary Network, LLC ("KCN" or "Keefe") is submitting a copy of audited financial statements. Keefe would like to identify these financial statements as confidential proprietary information and invoke protection for the documents from disclosure pursuant to **Missouri Revised Code 610.021.**

As a private company, Keefe exerts reasonable efforts to maintain the secrecy of its financial statements. These financials are very valuable, because they provide a comprehensive understanding of the company's financial transactions and overall financial condition. A release of the statements would allow industry competitors to identify Keefe's allocation of resources and internal business decisions, leading to a loss of competitive position for Keefe in the industry.

As instructed, we have marked Keefe's audited financial statements as confidential and request that they not be disclosed to the public.

Report of Independent Auditors

The Board of Directors and Member
Keefe Commissary Network, LLC

We have audited the accompanying financial statements of Keefe Commissary Network, LLC (the Company) which comprise the balance sheets as of December 31, 2012 and December 31, 2011, and the related statements of income and comprehensive income, changes in member's net investment, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

A member firm of Ernst & Young Global Limited

Keefe Commissary Network, LLC

Notes to Financial Statements

December 31, 2012 and 2011

1. Summary of Significant Accounting Policies

Lines of Business

The primary line of business of Keefe Commissary Network, LLC (the Company) is the sale and distribution of food and other products to inmates located in prisons throughout the United States and includes the operations of Access Securepak and Access Corrections. The Company is a limited liability company (LLC) whose sole member is Centric Group, LLC (Centric).

Significant intercompany accounts and transactions between operations within the Company have been eliminated. The financial statements include allocations of common costs and general management services from Centric as discussed in Note 4.

Subsequent Events

The Company evaluated the effect of all subsequent events from December 31, 2012 through March 28, 2013, the date the consolidated financial statements were available for issuance.

Cash

The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash.

Restricted Cash

Restricted cash consists of cash being held on behalf of correctional facilities in fiduciary bank accounts in the amount of $2,148,844 at December 31, 2012. The Company has its own cash held on reserve of $1,108,428 to meet state requirements for money transmitter licenses.

Accounts Receivable

The Company's accounts receivable are recorded at the amounts invoiced to customers, less an allowance for doubtful accounts. Management estimates the allowance based on a review of the portfolio. Accounts are written off to the allowance for doubtful accounts once collection efforts are exhausted. The allowance for doubtful accounts was $149,722 and $496,635 at December 31, 2012 and 2011.

CONFIDENTIAL

1. Summary of Significant Accounting Policies (continued)

Inventories

Inventories, which consist primarily of finished goods held-for-sale, are valued at the lower of cost (first-in, first-out and average cost methods) or market.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are provided using the straight-line method over the estimated useful lives of the assets as follows:

Buildings and improvements	15 to 20 years
Equipment	3 to 10 years
Furniture and fixtures	5 years
Software	3 years

Leasehold improvements are amortized over the shorter of the remaining lease term or the estimated useful life of the improvements.

The Company capitalizes into equipment certain costs incurred in connection with the development or acquisition of software for internal use. Depreciation expense related to computer software was $1,940,026 and $1,580,937 in 2012 and 2011, respectively.

Other Assets

Other assets consist of definite-life intangible assets being amortized over five years (see Note 3).

Long-Lived Assets

The Company evaluates impairment on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the estimated undiscounted cash flows to be generated by such assets are less than their book value. Losses are recorded if the discounted cash flow value is less than the carrying value. No long-lived asset impairment charges were recorded during 2012 and 2011.

CONFIDENTIAL

1. Summary of Significant Accounting Policies (continued)

Revenue Recognition

Revenue is recorded when title passes to the customer, generally upon shipment. The Company records all revenues related to shipping and handling fees to the statements of income and comprehensive income in cost of sales.

Advertising

Advertising and sales promotion costs are expensed as incurred. The Company incurred advertising and promotion expenses of *$1,257,277* and *$1,355,988* for the years ended December 31, 2012 and 2011, respectively.

Income Taxes

The Company has elected to be taxed as a partnership through December 31, 2012. As a result, no income tax expense is reflected in the accompanying financial statements. See Note 8 for information regarding the change in Centric's (the Parent Company) income tax status in 2013.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Recent Accounting Standards

In June 2011, the FASB issued changes to the requirements for reporting comprehensive income. These changes are included in Accounting Standards Codification (ASC) Topic 220, *Comprehensive Income: Presentation of Comprehensive Income*. ASC Topic 220 requires entities to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive net income or in two separate but consecutive statements. Regardless of which method an entity chooses, the entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to

net income in the statement(s) where the components of net income and the components of other comprehensive income are presented. In December 2011, the FASB deferred the effective date of the specific requirement to present items that are reclassified out of accumulated other comprehensive income to net income alongside their respective components of net income and other comprehensive income. All other changes to ASC Topic 220 were effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 (January 1, 2012 for the Company). The adoption of this standard did not impact the Company's consolidated financial condition or results of operations.

2.

3. Intangible Assets

Intangibles consist of the following at December 31, 2012:

	Balance at December 31, 2011	Additions 2012	Amortization 2012	Balance at December 31, 2012
		(In Thousands)		
Definite-life intangible assets:				
Supplier contract	$ –	$ 1,871	$ (281)	$ 1,590
Software	–	300	(60)	240
Total	$ –	$ 2,171	$ (341)	$ 1,830

Total amortization expense for the year ended December 31, 2012 was $341,139. The Company is amortizing the supplier contracts and software over five years, the estimated useful life of the assets. The remaining weighted-average useful life of the amortizable intangible assets is four years as of December 31, 2012.

CONFIDENTIAL

3. Intangible Assets (continued)

Estimated amortization expense for the next five years and thereafter is as follows:

Year ending December 31:	
2013	$ 434,064
2014	434,064
2015	434,064
2016	434,064
2017	93,537
Thereafter	–
	$ 1,829,793

4. Transactions with Member and Affiliates

Centric, the Company's sole member, and an affiliated company also owned by Centric, perform certain management and selling, general, and administrative services for the Company. Expenses are allocated based on Centric's best estimate of proportional or incremental costs, whichever is more representative of costs incurred by Centric on behalf of the Company. The Company was charged $10,861,106 and $9,227,288 for the years ended December 31, 2012 and 2011, respectively, for such services. As of December 31, 2012 and 2011, the Company had an outstanding balance due to affiliates of $639,280 and $2,199,011, respectively. The Company also had an outstanding balance due from affiliates of $2,065,404 at December 31, 2012.

5. Note Payable – Due to Parent

At December 31, 2012, the Company entered into a note payable agreement with the Parent Company for $15 million. The note is a demand note and no principal payments are due in 2013. Effective January 1, 2013, interest will be paid monthly and will be determined by Centric annually based on market conditions and Centric's interest costs.

6. Benefit Plans

The Company participates in a profit-sharing plan and a 401(k) plan maintained by Centric (collectively, the Plans). The Plans generally cover employees who have met service requirements. Under the profit-sharing plan, the Company may make discretionary contributions not to exceed maximum amounts deductible for federal income tax purposes. Total profit-sharing expense was $2,223,057 and $1,901,667 for the years ended December 31, 2012 and 2011, respectively. The 401(k) plan does not provide for employer contributions.

7. Leases

The Company leases certain operating premises under noncancelable leases expiring at various dates through 2017. Certain of these leases provide for renewal options and/or require the payment of property taxes, insurance, and maintenance. Total rent expense was approximately $2,925,445 and $1,105,987 for the years ended December 31, 2012 and 2011, respectively.

Future minimal rentals committed under all such leases in effect at December 31, 2012, with noncancelable terms in excess of one year are as follows:

December 31:	
2013	$ 877,441
2014	768,871
2015	779,321
2016	418,833
2017	80,979
Thereafter	–
	$ 2,929,445

8. Subsequent Event (unaudited)

As of January 1, 2013, Centric has elected to be taxed as a C Corporation under the provisions of the Internal Revenue Code and similar provisions of state tax laws. The Company is a part of the consolidated Centric income tax return. FASB ASC 740, *Income Taxes*, specifies that the amount of current and deferred tax expense for a group that files a consolidated tax return shall be allocated among the members of the group when the members issue separate financial statements. As a result, the Company has a net deferred tax asset of $13,708,760 as of January 1, 2013 that will be recorded to the financial statements for fiscal year 2013.
