See Attachments for Certifications & More details.

Luke,

Our batteries are sent to a broker named Interco Trading Company out of Madison, Illinois. They send the batteries to a steel mill in Wilton, Iowa called Gerdau Steel. At this plant they manufacture low grade steel products such as re-bar. They melt the alkaline batteries, recovering the material and adding it to the steel. The Paste inside the batteries is chemically neutral and acts as a flux in the smelting process. Interco has done onsite visits to see this process, and companies such as Energizer and Duracell use this same method.

All of our downstream vendors had to be vetted (including Interco) for us to achieve the R2 certification. We can prove through paperwork and certification from cradle to grave where all material ends up.

I have attached an "about us" document that explains our company and certification in more detail. I have also attached an electronic version of our brochure. You can also check out the R2 standard website for more info. A link is below. If you would like our R2 manual please let me know. I will warn you it is hundreds of pages long though, but I am happy to send it.

MRC Recycling (Certified Electronic Recycling)
314-779-5829
www.midwrc.net

MRC's BACKGROUND INFORMATION, SPECIALIZED EXPERIENCE, TECHNICAL COMPETENCE, CAPACITY AND CAPABILITY TO PERFORM WORK IN QUESTION:

MRC Recycling is a locally owned and run company that has been in business for over 13 years serving hundreds of schools and businesses. MRC is a specialist in electronic and appliance recycling with the goal of properly diverting as many tons of electronics and appliances from the landfill as possible by offering convenient solutions to the ongoing issues of identity theft and environmental liability.

We are registered with the EPA (EPA ID # MOR000533174), are Level 4 Certified by the Missouri Department of Natural Resources (MO ID # 043500), and hold National R2 Certification (C2012-02365). Annual inspections are done by the Missouri Department of Natural Resources, third party audits are done by R2 Solutions, and quarterly reports are made to the St. Louis Solid Waste Management District with regards to our procedures, documentation, and end markets for materials.

MRC's main processing facility is a 53,000 sq. ft. warehouse located at 915 5th St. Park Hills, Missouri. We have four other drop-off facilities located in South St. Louis, Barnhart (21,000 sq ft), Jefferson City, and Cape Girardeau Missouri. These facilities manage IT, the destruction of information, and the reuse division of our business.

The proper destruction of hard drives and the information contained on them is an essential service MRC offers. We have four different methods in which we are able to protect our clients' valuable information. Depending on the requirements of each client, MRC is able to wipe hard drives with data sanitation software compliant with Department of Defense standards, destroy the information on site with portable equipment such as an industrial degausser, hydraulic hole punch, or by shredding at our South County facility. All the tools utilized by MRC are made specifically for the purpose of protecting our clients by destroying all of their stored personal data.

MRC follows all of the laws, guidelines, and Best Management Practices (BMPs) put forth by the EPA. We keep our clients from becoming a PRP (Potentially Responsible Party) of any electronic material as well as keep all material from falling into the category of hazardous waste by fully complying with the Resource Conservation

Recovery Act (RCRA), Comprehensive Response Compensation and Liability Act (CERCLA), Toxic Substance Control Act, Clean Air Act, and the Clean Water Act. MRC does this by keeping all material in what the EPA and DNR consider a “Documented Recycling Loop.” We maintain and document all electronic material from the transfer of ownership from your company to MRC and then to the end markets, preventing the electronic material from being considered “hazardous waste.” MRC is also compliant with E-verify law requirements.

Jeff Porter, co-owner of MRC, and additional staff have Freon training and certification. All of their Freon recovery equipment is registered with the EPA.

MRC follows the mantra of Recycling, “Reduce, Reuse, Recycle.” Based on the requirements of each client, MRC either demanufactures items down to a component level, or finds a home for the item to be reused. Since reuse is the most environmentally friendly form of recycling, we try to reuse items in the form of parts or as a working unit (as long as the client does not require the item be destroyed). Once all recycled material is broken down to a component level, such as steel, aluminum, plastic, lead, etc., it is shipped to an EPA approved facility to be shredded and separated further. The raw material is then melted or smelted and recycled back into a new product. Since MRC has a zero landfill policy, none of your material will end up in the landfill. We can provide documentation to show proper data destruction and/or recycling.

MRC is one of only five electronics recycling companies in Missouri that have National R2 Certification. What this means to our clients:

Data security

- All R2 certified recyclers are required to sanitize, purge, or destroy data on all hard drives and data storage devices.
- Data destruction processes are reviewed and validated by an independent party periodically.
- R2 recyclers are required to have a security program in place that is appropriate for the equipment they handle and the customers they serve.

Environmental practices

- R2 defines focus materials, or materials that can pose environmental concern, and outlines how these materials should be managed to ensure environmental and worker safety.
- Requires downstream due diligence on all vendors handling focus materials to ensure materials are handled properly throughout the chain of custody.
- Prohibits the export of equipment and components containing focus materials to developing countries unless the transaction is legal under both the export and import countries’ laws and the receiving facility is state-of-the-art.

Proper e-waste disposal

- All R2 certified electronics recyclers maintain necessary permits, licenses, and insurance as required by state and federal regulations.
- R2 requires that all recyclers send materials to licensed and permitted facilities.
- Rigorous shipping and material tracking systems are employed by all R2 certified recyclers.

Insurance

R2 requires that all recyclers obtain pollution insurance (MRC has a \$1 million policy)

MRC is in excellent standing with the Missouri Department of Natural Resources, St. Louis-Jefferson Solid Waste Management District, Southeast Solid Waste Management District, St. Louis County Health Department, Meramec Regional Planning Commission, universities, schools, municipalities, and businesses all over Missouri. With their full support, MRC manages over 75 community recycling events a year.

Listed below are some of our long-term clients and new projects we are currently working on:

- Joplin Disaster Area Cleanup: We recycled everything with a cord or battery (over 312,000 lbs).
- North Dakota Flood Disaster Area: There will be an estimated 300,000 lbs of material diverted from the landfill by MRC on this project.
- Manage over 100 schools' electronic material in the State of Missouri.

- Official electronics recycler of St. Louis Earth Day event! (Largest in Midwest)
- Recycled every electronic item, robot controller, air conditioner, water fountain, lead and rechargeable battery, non-PCB ballasts, etc. from the two million sq. foot Chrysler plant demolished in Fenton, MO.
- Recycle all obsolete electronics from the State of Missouri Surplus and the Missouri Lotto, as well as manage events with the Missouri State Recycling Program.
- Work with St. Louis University (SLU), Southeast Missouri State University, St. Louis Community College, and Missouri Southern State University.

- Manage Mercy Hospital, Southeast Missouri Hospital, Jefferson Memorial Hospital, Popular Bluff Hospital and other medical facilities.

- Decommissions and provides Freon removal on lab and testing equipment for Monsanto as well as recovers Freon for the Meramec Regional Planning Commission, Proctor & Gamble, St. Louis University, and Southeast Missouri State University.

Thanks for your interest in MRC Recycling.

**We look forward to working with you to enhance your current recycling efforts,
while saving you money.**

- Evaluation and Award

1.2.2 **Background Information** – The Department operates offender canteens within the correctional institutions for offenders to purchase approved food, clothing, appliances and other items. By departmental policy, the selection of items approved and available for purchase in the canteens is decided upon by committee. The committee is tasked with standardizing an approved list in order to provide uniformity in product and pricing in the canteens. Items on the approved list are competitively bid in order to obtain the best possible pricing for the Department. Once contracted, only contracted items are allowed to be sold in the canteens.

1.2.3 The estimated population for all correctional institutions is 31,237.

1.2.4 The estimated annual gross sales for batteries are \$61,578.00.

1.2.5 **Funds** – Expenditures from general revenue funds are not included in this contract.

1.2.6 All items on this IFB are currently under contract. This contract is being established to replace the existing contract when it expires.

| Item Number | Contract Number | Contract Expiration Date |
|-------------|-----------------|--------------------------|
| 001-003 | CN203001 | July 14, 2013 |

2. CONTRACTUAL REQUIREMENTS

2.1 Contract Period:

2.1.1 The original contract period shall be July 15, 2013 through July 14, 2014. The contract shall not bind, nor purport to bind, the Department for any contractual commitment in excess of the

original contract period. The Department shall have the right, at its sole option, to renew the contract for four (4) additional twelve (12) month periods or any portion thereof. In the event the Department exercises such right, all terms and conditions, requirements, and specifications of the contract shall remain the same and apply during the renewal period pursuant to applicable option clauses of this document.

2.2 Renewal Periods:

2.2.1 If the Department exercises its option for renewal, the contractor shall agree that the prices for the renewal period shall not exceed the maximum percentage increase or be less than the minimum percentage decrease quoted for the applicable renewal period as stated on **EXHIBIT A, Pricing Page**, of the contract.

- a. As stated on **EXHIBIT A, Pricing Page**, all increases or decreases shall be calculated against the ORIGINAL contract price and NOT against the previous year's price. If a price increase or decrease was allowed as outlined in paragraph 2.5 of this IFB, the increase/decrease will be added/subtracted after the calculation of the renewal price has been determined.

EXAMPLE: Original Contract Price = \$1.00, Maximum Increase = 2%, Economic Adjustment = 5%

Renewal Period Increase - $\$1.00 \times 2\% = \1.02

Economic Adjustment - $\$1.00 \times 5\% = \1.05

Renewal Period Price = $\$1.07 (\$1.02 + \$0.05)$

- b. If renewal percentages are not provided, then the price during the renewal period shall be the same as during the original contract period.
- c. The Department does not automatically exercise its option for renewal based upon the maximum percentage and reserves the right to offer or to request renewal of the contract at a percentage less than the maximum stated.

2.3 Contract Prices:

2.3.1 The prices shall be as stated on **EXHIBIT A, Pricing Page**. The Department shall not pay, nor be liable, for any other additional costs, including but not limited to, taxes, shipping charges, insurance, interest, penalties, termination payments, attorney fees, liquidated damages, etc.

- a. Price shall be considered firm for all items for the duration of the contract period unless a price increase/decrease is allowed as outlined in paragraph 2.5 of this IFB.

2.4 Point of Contact:

2.4.1 The contractor must act as the responsible agent for all distributors shipping product to the canteen commodity warehouse, and be the single point of contact on all matters.

2.5 Economic Adjustment Clause:

2.5.1 In the event that the contractor's cost for the items covered in this IFB and resulting contract should increase by more than 5% during the period of time in which the contract is in effect, the contractor may, upon submission of written proof of such increase and approval by the Department, be entitled to an adjustment in price accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and the Department. All prices shall remain firm for the first six (6) months of this contract.

2.5.2 The contractor must submit a written request for price increases to the Department's Purchasing Section. Whenever possible, the written request shall be submitted thirty (30) days prior to the

effective date of increase. Requests and documentation must be submitted via US Mail. If the manufacturer or supplier provides a percentage increase, the claim for such adjustment must include a certification from the manufacturer or supplier verifying the contractor's cost at the time of the bid award, the new cost, and the effective date of the increase. If the manufacturer or supplier provides an actual dollar amount of increase, the claim for such adjustment must include a certification from the manufacturer or supplier verifying the increase and the effective date of the increase. Supporting documentation must be on original manufacturer's or supplier's letterhead, dated, signed, and must clearly establish the increase is to all customers and not to the Department or this contract alone. Supporting documentation will be returned to the contractor once the Department's Purchasing Section has verified its validity and shall not become part of the contract record.

- 2.5.3 In the event a written request from the contractor does not allow for a thirty (30) day notice prior to the effective date of the increase, the effective date of the increase, if allowed by the Department, will be thirty (30) days from the date of the receipt of a written request by the Department's Purchasing Section.
- 2.5.4 The increase will be allowed only on the cost of the item(s) to the contractor. No increase or change in the contractor's overhead, transportation costs, profit or other factors will be approved. The Department reserves the right to ask for invoices, published price lists, or any other evidence establishing the contractor's costs to support the increase. Failure to supply any requested documentation will be grounds to deny adjustment in price.
- 2.5.5 After receipt of the required documentation, and in the event a price change is authorized thereafter, no additional adjustments will be allowed for a term of six (6) months.
- 2.5.6 The Department further reserves the right to reject any proposed price increase, cancel the item(s) from the contract and re-bid the item(s), if it is determined to be in the best interest of the Department.
- 2.5.7 Contractors shall not delay or stop deliveries pending price changes. If a price increase is allowed through a formal contract amendment, no price increase shall be billed to the Department before the effective date of the increase. Billed price changes will only be accepted for payment on purchase orders dated on or after the effective price change date. Purchase orders dated prior to the effective price change date shall be billed at the contract price in existence before the amended price change regardless of when delivery is accepted.
- 2.5.8 In the event the Department has granted the contractor a price increase, and the contractor's costs should *decrease* by more than 5% during the period of time that the contract is in effect, the contractor shall pass any manufacturer's price decrease to the Department and such decreases shall become effective immediately upon notification by the contractor of the amount of the decrease. The contractor shall notify the Department immediately of any such decrease.

2.6 Invoicing and Payment Terms:

- 2.6.1 All payment terms shall be as stated in the terms and conditions of this contract. Payments will be processed based on final delivery, inspection, and acceptance of the item(s). Payment terms should be Net 30 unless otherwise stated in the IFB.
- 2.6.2 The contractor shall accurately invoice per the price indicated on **EXHIBIT A, Pricing Page**.
- 2.6.3 The Department may choose to use the state purchasing card (Visa) in place of a purchase order to make purchases under this contract. Unless exception to this condition is indicated on **EXHIBIT A, Pricing Page**, the contractor agrees to accept the state purchasing card as an acceptable form of payment and may not charge any additional fees related to the use of a purchasing card such as service fees, merchant fees, and/or handling charges.

- a. If the Department issues a purchase order, an itemized invoice shall be emailed to DOC.CanteenPayables@doc.mo.gov or mailed to:

Attn: Offender Financial Services – Accounts Payable
Missouri Department of Corrections
PO Box 1609
Jefferson City, MO 65102

- 2.6.4 Each invoice submitted must be specific to one purchase order number. The purchase order number must be referenced on the invoice and the invoice must be itemized in accordance with the item(s) listed on the purchase order. Failure to comply with this requirement may delay processing of invoices for payment. Emailed invoices should contain the purchase order number in the subject line.

- a. If the state purchasing card (Visa) is used for payment, an itemized invoice reflecting the charged amount must be faxed or emailed to the institution within one business day. The state purchasing card shall not be charged until the items are received and accepted.

- 2.6.5 The contractor's invoice should include any discount for prompt payment as indicated on **EXHIBIT A, Pricing Page**.

- 2.6.6 If the contractor maintains an e-commerce web application that enables Department staff to view and print invoices and invoice history, the contractor shall indicate on **EXHIBIT A, Pricing Page** the web site address where the Department staff may access invoices. Upon award of a contract, the contractor shall provide the Department with a customer number in order for Department staff to access invoices and invoice history.

2.7 Hazardous Materials Data Sheet and Labeling:

- 2.7.1 The Department, in accordance with the revised rules and regulations of the Occupational Safety and Health Administration (OSHA), requires that all hazardous chemicals and other appropriate commodities purchased by the Department must include a material safety data sheet, and warning labels affixed to the cartons the commodities are delivered in. Therefore, the contractor must comply by providing this information for all commodities which contain hazardous material. Failure to comply with this requirement may cause cancellation of the contract with goods returned at the contractor's expense as well as suspension from the solicitation list for future requirements.

2.8 Subcontractors:

- 2.8.1 Any subcontract for the items/services described herein must include appropriate provisions and contractual obligations to ensure the successful fulfillment of all contractual obligations agreed to by the contractor and the Department and to ensure that the Department is indemnified, saved, and held harmless from and against any and all claims of damage, loss, and cost (including attorney fees) of any kind related to a subcontract in those matters described in the contract between the Department and the contractor. The contractor shall expressly understand and agree that he/she shall assume and be solely responsible for all legal and financial responsibilities related to the execution of a subcontract. The items/services in the contract shall in no way relieve the contractor of the responsibility for providing the items/services as described and set forth herein. The contractor must obtain the approval of the Department prior to establishing any new subcontracting arrangements and before changing any subcontractors. The approval shall not be arbitrarily withheld.

The bidder should clearly identify detailed specifications for the product being offered and any deviations from both the mandatory and desirable specifications stated in the IFB on the pricing pages. 5. EVALUATION AND AWARD

5.1.2 All samples submitted for consideration of this IFB shall be evaluated for meeting the specified requirements and overall acceptability. Only those samples submitted that meet specifications and are determined to be acceptable will be considered for award.

5.1.3 The cost evaluation will be calculated as follows:

- a. For line items 001-003, the individual cost for each item will be calculated dividing the firm fixed case price for the line item stated on **EXHIBIT A, Pricing Page**, by the number of items per case to arrive at the cost per item. The initial contract period cost for the

group will be calculated by multiplying the cost per item in the group by the estimated quantity for that line item and adding the totals for each line item together.

- b. A cost for each renewal period will be calculated in the same manner as indicated in 5.1.3 a. The total cost of the initial contract period and each renewal period will be added together to arrive at the total bid price.

- 5.1.4 **Buy American Preference** – For batteries bid meeting proof of compliance with section 34.353 RSMo in accordance with the Domestic Procurement Act, sections 34-350 RSMo through 34.359 RSMo, the Buy American preference shall be computed as follows:

As deemed in its best interests, the Department reserves the right to clarify any and all portions of any bidder's offering.

A bid which has been delivered to the Department's Purchasing office may only be withdrawn by a signed, written document on company letterhead transmitted via mail, e-mail, or facsimile which has been received by the Department's Purchasing office prior to the official opening date and time specified. A bid may also be withdrawn in person by the bidder or its authorized representative provided proper identification is presented before the official opening date and time. Telephone or telegraphic requests to withdraw a bid shall not be honored.
- e. A bid may also be withdrawn after the bid opening through submission of a written request by an authorized representative of the bidder. Justification of a withdrawal decision may include a significant error or exposure of bid information that may cause irreparable harm to the bidder.
- f. Bidders must sign and return the IFB cover page or, if applicable, the cover page of the last amendment thereto in order to constitute acceptance by the bidder of all the IFB terms and conditions. Failure to do so may result in the rejection of the bid unless the bidder's full compliance with those documents is indicated elsewhere within the bidder's response.
- g. Faxed and e-mailed bids shall not be accepted; however, faxed and e-mail no-bid notifications shall be accepted.

7. BID OPENING

- a. Bid openings are public on the opening date and time specified in the IFB document. Names, locations, and prices of respondents shall be read at the bid opening. The Department will not provide prices or other bid information via the telephone.
- b. Bids which are not received in the Department's Purchasing office prior to the official opening date and time shall be considered late, regardless of the degree of lateness, and normally will not be opened. Late bids may only be opened under extraordinary circumstances in accordance with 1 CSR 40-1.050.

8. PREFERENCES

- a. In the evaluation of bids, preferences shall be applied in accordance with Chapter 34 RSMo. Contractors should apply the same preferences in selecting subcontractors.
- b. By virtue of statutory authority, a preference will be given to materials, products, supplies, provisions and all other articles produced, manufactured, made or grown within the State of Missouri and to all firms, corporations

or individuals doing business as Missouri firms, corporations or individuals. Such preference shall be given when quality is equal or better and delivered price is the same or less.

9. EVALUATION/AWARD

- a. Any clerical error, apparent on its face, may be corrected by the Buyer of Record before contract award. Upon discovering an apparent clerical error, the Buyer of Record shall contact the bidder and request clarification of the intended bid. The correction shall be incorporated in the notice of award. Examples of apparent clerical errors are: 1) misplacement of a decimal point; and 2) obvious mistake in designation of unit.
- b. Any pricing information submitted by a bidder shall be subject to evaluation if deemed by the Department to be in the best interest of the State of Missouri.
- c. The bidder is encouraged to propose price discounts for prompt payment or propose other price discounts that would benefit the Department. However, unless otherwise specified in the IFB, pricing shall be evaluated at the maximum potential financial liability to the Department.
- d. Awards shall be made to the bidder(s) whose bid (1) complies with all mandatory specifications and requirements of the IFB and (2) is the lowest and best bid, considering price, responsibility of the bidder, and all other evaluation criteria specified in the IFB and (3) complies with sections 34.010 and 34.070 RSMo and Executive Order 04-09.
- e. In the event all bidders fail to meet the same mandatory requirement in an IFB, the Department reserves the right, at its sole discretion, to waive that requirement for all bidders and to proceed with the evaluation. In addition, the Department reserves the right to waive any minor irregularity or technicality found in any individual bid.
- f. The Department reserves the right to reject any and all bids.
- g. When evaluating a bid, the Department reserves the right to consider relevant information and fact, whether gained from a bid, from a bidder, from a bidder's references, or from any other source.
- h. Any information submitted with the bid, regardless of the format or placement of such information, may be considered in making decisions related to the responsiveness and merit of a bid and the award of a contract.
- i. Any award of a contract shall be made by notification from the Department to the successful bidder. The Department reserves the right to make awards by item, group of items, or an all or none basis. The grouping of items awarded shall be determined by the Department based upon factors such as item similarity, location, administrative efficiency, or other considerations in the best interest of the State of Missouri.
- j. All bids and associated documentation submitted on or before the official opening date and time will be considered open records pursuant to section 610.021 RSMo.
- k. The Department maintains records of all bid file material for review. Bidders who include an e-mail address with their bid will be notified of the award results via e-mail if requested.
- l. The Department reserves the right to request clarification of any portion of the bidder's response in order to verify the intent of the bidder. The bidder is cautioned, however, that its response may be subject to acceptance or rejection without further clarification.
- m. Any bid award protest must be received within ten (10) calendar days after the date of award in accordance with the requirements of 1 CSR 40-1.050 (9).
- n. The final determination of contract award(s) shall be made by the Department.

10. CONTRACT/PURCHASE ORDER

- a. By submitting a bid, the bidder agrees to furnish any and all equipment, supplies and/or services specified in the IFB, at the prices quoted, pursuant to all requirements and specifications contained therein.
- b. A binding contract shall consist of: (1) the IFB and any amendments thereto, (2) the contractor's response (bid) to the IFB, (3) clarification of the bid, if any, and (4) the Department's acceptance of the response (bid) by "notice of award" or by "purchase order." All Exhibits and Attachments included in the IFB shall be incorporated into the contract by reference.
- c. A notice of award issued by the Department does not constitute an authorization for shipment of equipment or supplies or a directive to proceed with services. Before providing equipment, supplies and/or services for the Department, the contractor must receive a properly authorized purchase order or other form of authorization given to the contractor at the discretion of the Department.
- d. The contract expresses the complete agreement of the parties and performance shall be governed solely by the specifications and requirements contained therein. Any change to the contract, whether by modification and/or supplementation, must be accomplished by a formal contract amendment signed and approved by and between the duly authorized representative of the contractor and the Department prior to the effective date of such modification. The contractor expressly and explicitly understands and agrees that no other method and/or no

other document, including correspondence, acts, and oral communications by or from any person, shall be used or construed as an amendment or modification to the contract.

11. INVOICING AND PAYMENT

- a. The State of Missouri does not pay state or federal taxes unless otherwise required under law or regulation.
- b. For each purchase order received, an invoice must be submitted that references the purchase order number and must be itemized in accordance with items listed on the purchase order. Failure to comply with this requirement may delay processing of invoices for payment.
- c. Payment for all equipment, supplies, and/or services required herein shall be made in arrears unless otherwise indicated in the IFB.
- d. The Department assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any unauthorized quantity is subject to the Department's rejection and shall be returned to the contractor at the contractor's expense.
- e. All invoices for equipment, supplies, and/or services purchased by the Department shall be subject to late payment charges as provided in section 34.055 RSMo.
- f. The Department reserves the right to purchase goods and services using the state purchasing card.

12. DELIVERY

- a. Time is of the essence. Deliveries of equipment, supplies, and/or services must be made no later than the time stated in the contract or within a reasonable period of time if a specific time is not stated.
- b. A Missouri Uniformed Law Enforcement System (MULES) background check may be required on the contractor's delivery driver prior to allowing a delivery vehicle entrance to certain institutions. A valid Missouri driver's license is required from the driver to perform the MULES background check. If the driver does not have a valid Missouri driver's license, their social security number and date of birth are required. If a driver or carrier refuses to provide the appropriate information to conduct a MULES background check, or if information received from the background check prohibits the driver or carrier from entering the institution, the delivery will be refused. Additional delivery costs associated with re-deliveries or contracting with another carrier for delivery shall be the responsibility of the contractor.
- c. Unless a pallet exchange is requested at the time of delivery, all pallets used in the delivery of equipment and supplies shall become property of the Department.

13. INSPECTION AND ACCEPTANCE

- a. No equipment, supplies, and/or services received by the Department pursuant to a contract shall be deemed accepted until the Department has had reasonable opportunity to inspect said equipment, supplies, and/or services.
- b. All equipment, supplies, and/or services which do not comply with the specifications and/or requirements, or which are otherwise unacceptable or defective, may be rejected. In addition, all equipment, supplies, and/or services which are discovered to be defective, or which do not conform to any warranty of the contractor upon inspection (or at any later time if the defects contained were not reasonably ascertainable upon the initial inspection), may be rejected.
- c. The Department reserves the right to return any such rejected shipment at the contractor's expense for full credit or replacement and to specify a reasonable date by which replacements must be received.
- d. The Department's right to reject any unacceptable equipment, supplies, and/or services shall not exclude any other legal, equitable or contractual remedies the state may have.

14. WARRANTY

- a. The contractor expressly warrants that all equipment, supplies, and/or services provided shall: (1) conform to each and every specification, drawing, sample or other description which was furnished to or adopted by the Department, (2) be fit and sufficient for the purpose expressed in the IFB, (3) be merchantable, (4) be of good materials and workmanship, and (5) be free from defect.
- b. Such warranty shall survive delivery and shall not be deemed waived either by reason of the Department's acceptance of or payment for said equipment, supplies, and/or services.

15. CONFLICT OF INTEREST

- a. Elected or appointed officials or employees of the State of Missouri or any political subdivision thereof, serving in an executive or administrative capacity, must comply with sections 105.452 and 105.454 RSMo regarding conflict of interest.
- b. The contractor hereby covenants that at the time of the submission of the bid the contractor has no other contractual relationships which would create any actual or perceived conflict of interest. The contractor further agrees that during the term of the contract neither the contractor nor any of its employees shall acquire any other contractual relationships which create such a conflict.

16. CONTRACTOR STATUS

- a. The contractor represents itself to be an independent contractor offering such services to the general public and shall not represent itself to be an employee of the State of Missouri. Therefore, the contractor shall assume all legal and financial responsibility for taxes, FICA, employee fringe benefits, workers compensation, employee insurance, minimum wage requirements, overtime, etc., and agrees to indemnify, save, and hold the State of Missouri, its officers, agents, and employees, harmless from and against, any and all loss, costs (including attorney fees), and damage of any kind related to such matters.

17. REMEDIES AND RIGHTS

- a. No provision in the contract shall be construed, expressly or implied, as a waiver by the Department of any existing or future right and/or remedy available by law in the event of any claim by the Department of the contractor's default or breach of contract.
- b. The contractor agrees and understands that the contract shall constitute an assignment by the contractor to the Department of all rights, title and interest in and to all causes of action that the contractor may have under the antitrust laws of the United States or the Department for which causes of action have accrued or will accrue as the result of or in relation to the particular equipment, supplies, and/or services purchased or procured by the contractor in the fulfillment of the contract with the Department.

18. SEVERABILITY

- a. If any provision of this contract or the application thereof is held invalid, the invalidity shall not affect other provisions or applications of this contract which can be given effect without the invalid provisions or application, and to this end the provisions of this contract are declared to be severable.

19. CANCELLATION OF CONTRACT

- a. In the event of material breach of the contractual obligations by the contractor, the Department may cancel the contract. At its sole discretion, the Department may give the contractor an opportunity to cure the breach or to explain how the breach will be cured. The actual cure must be completed within no more than ten (10) working days from notification, or at a minimum, the contractor must provide the Department within ten (10) working days from notification a written plan detailing how the contractor intends to cure the breach.
- b. If the contractor fails to cure the breach, or if circumstances demand immediate action, the Department will issue a notice of cancellation terminating the contract immediately. If it is determined the Department improperly cancelled the contract, such cancellation shall serve as notice of termination for convenience in accordance with the contract.
- c. If the Department cancels the contract for breach, the Department reserves the right to obtain the equipment, supplies, and/or services to be provided pursuant to the contract from other sources and upon such terms and in such manner as the Department deems appropriate and charge the contractor for any additional costs incurred thereby.
- d. The contractor understands and agrees that if the funds required to fund the contract are appropriated by the General Assembly of the State of Missouri, the contract shall not be binding upon the Department for any contract period in which funds have not been appropriated, and the Department shall not be liable for any costs associated with termination caused by lack of appropriations.
- e. If the Department has reasonable cause to believe that the contractor has knowingly employed individuals who are not eligible to work in the United States in violation of federal law, the Department shall declare a breach and cancel the contract immediately without incurring any penalty.

20. TERMINATION OF CONTRACT

- a. The Department reserves the right to terminate the contract at any time for the convenience of the Department, without penalty or recourse, by giving notice to the contractor at least thirty (30) calendar days prior to the effective date of such termination. The contractor shall be entitled to receive just and equitable compensation for services and/or supplies or equipment delivered to and accepted by the Department pursuant to the contract prior to the effective date of termination.

21. ASSIGNMENT OF CONTRACT

- a. The contractor shall neither assign nor transfer any of the rights, interests, or obligations of the contract without the prior written consent of the Department.

22. COMMUNICATIONS AND NOTICES

- a. Any notice to the contractor shall be deemed sufficient when e-mailed to the contractor at the e-mail address indicated in the contract, or transmitted by facsimile to the facsimile number indicated in the contract, or deposited in the United States mail, postage prepaid, and addressed to the contractor at the address indicated in the contract, or hand-carried and presented to an authorized employee of the contractor.
- b. If the contractor desires to receive written notices at a different e-mail address, facsimile number, or USPS address than what is indicated in the contract, the contractor must submit this request in writing upon notice of award.

23. FORCE MAJEURE

- a. The contractor shall not be liable for any excess costs for delayed delivery of goods or services to the Department if the failure to perform the contract arises out of causes beyond the control of, and without the fault or negligence of, the contractor. Such causes may include, however are not restricted to: acts of God, fires, floods, epidemics, quarantine restrictions, strikes, and freight embargoes. In all cases, the failure to perform must be beyond the control of, and without the fault or negligence of, either the contractor or any subcontractor(s). The contractor shall take all possible steps to recover from any such occurrences.

24. CONTRACT EXTENSION

- a. In the event of an extended re-procurement effort and the contract's available renewal options have been exhausted, the Department reserves the right to extend the contract. If exercised, the extension shall be for a period of time as mutually agreed to by the Department and the contractor at the same terms, conditions, provisions, and pricing in order to complete the procurement process and transition to a new contract.

25. INSURANCE

- a. The State of Missouri cannot save and hold harmless and/or indemnify the contractor or its employees against any liability incurred or arising as a result of any activity of the contractor or the contractor's employees related to the contractor's performance under the contract. Therefore, the contractor must acquire and maintain adequate liability insurance in the form(s) and amount(s) sufficient to protect the State of Missouri, its agencies, its employees, its clients, and the general public against any such loss, damage, and/or expense related to his/her performance under the contract.

26. BANKRUPTCY OR INSOLVENCY

- a. Upon filing for any bankruptcy or insolvency proceeding by or against the contractor, whether voluntary or involuntary, or upon the appointment of a receiver, trustee, or assignee for the benefit of creditors, the contractor must notify the Department immediately.
- b. Upon learning of any such actions, the Department reserves the right, at its sole discretion, to either cancel the contract or affirm the contract and hold the contractor responsible for damages.

27. INVENTIONS, PATENTS AND COPYRIGHTS

- a. The contractor shall defend, protect, and hold harmless the Department, its officers, agents, and employees against all suits of law or in equity resulting from patent and copyright infringement concerning the contractor's performance or products produced under the terms of the contract.

28. CONTRACTOR PROPERTY

- a. Upon expiration, termination or cancellation of a contract, any contractor property left in the possession of the Department after forty-five (45) calendar days shall become property of the Department.

29. NON-DISCRIMINATION AND AFFIRMATIVE ACTION

- a. In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall agree not to discriminate against recipients of services or employees or applicants for employment on the basis of race, color, religion, national origin, sex, age, disability, or veteran status unless otherwise provided by law. If the contractor or subcontractor employs at least 50 persons, they shall have and maintain an affirmative action program which shall include:
 1. A written policy statement committing the organization to affirmative action and assigning management responsibilities and procedures for evaluation and dissemination;
 2. The identification of a person designated to handle affirmative action;
 3. The establishment of non-discriminatory selection standards, objective measures to analyze recruitment, an upward mobility system, a wage and salary structure, and standards applicable to layoff, recall, discharge, demotion, and discipline;
 4. The exclusion of discrimination from all collective bargaining agreements; and
 5. Performance of an internal audit of the reporting system to monitor execution and to provide for future planning.
- b. If discrimination by a contractor is found to exist, the Department shall take appropriate enforcement action which may include, but not necessarily be limited to, cancellation of the contract, suspension, or debarment by the Department until corrective action by the contractor is made and ensured, and referral to the Attorney General's Office, whichever enforcement action may be deemed most appropriate.

30. AMERICANS WITH DISABILITIES ACT

- a. In connection with the furnishing of equipment, supplies, and/or services under the contract, the contractor and all subcontractors shall comply with all applicable requirements and provisions of the Americans with Disabilities Act (ADA).

31. FILING AND PAYMENT OF TAXES

- a. The commissioner of administration and other agencies to which the state purchasing law applies shall not contract for goods or services with a vendor if the vendor or an affiliate of the vendor makes sales at retail of tangible personal property or for the purpose of storage, use, or consumption in this state but fails to collect and properly pay the tax as provided in chapter 144, RSMo. For the purposes of this section, "affiliate of the vendor" shall mean any person or entity that is controlled by or is under common control with the vendor, whether through stock ownership or otherwise. Therefore a bidder's failure to maintain compliance with chapter 144, RSMo may eliminate their bid from consideration for award.

32. TITLES

- a. Titles of paragraphs used herein are for the purpose of facilitating reference only and shall not be construed to infer a contractual construction of language.
