3. **Labeling** – because all items are for resale, each item must be individually bar-coded.
 - a. The label must bear the name of the item, nutrition facts, ingredients, net weight, the date of expiration/freshness date, and, if applicable, instructions for preparation.
 - 1) The Department prefers expiration/freshness dating to be in month and year format; however, Julian date codes will be acceptable. If an item expresses a Julian date code, the supplier/manufacturer **must** provide the formula to decode the Julian date **along with the sample**. In addition, if the Julian date code is **not** an expiration/freshness date, the supplier/manufacturer **must provide with the sample** the manufacturer’s recommended shelf life in order to determine the expiration/freshness date from the Julian date code.
 - b. There shall be no alteration of **national** brand manufacturer’s labeling for any item. Manufacturer’s bulk packaged items shall not be re-labeled for individual resale. Re-labeled items and items that indicate “not for individual resale” are not acceptable.
