MANDATORY SPECIFICATIONS

1. All items must be shelf stable and must not require refrigeration before or after opening.
2. **For each item submitted, the supplier/manufacturer should include a copy of an ingredient and nutritional label.** If the label is not furnished with the sample, the label must be provided upon request. If requested, the label shall be furnished within five (5) business days after notification from the Department. Failure to provide this information may render the sample incapable of evaluation.
3. **Labeling** – because all items are for resale, each item must be individually bar-coded.
 - a. The label must bear the name of the item, nutrition facts, ingredients, net weight, the date of expiration/freshness date, and, if applicable, instructions for preparation.
 - 1) The Department prefers expiration/freshness dating to be in month and year format; however, Julian date codes will be acceptable. If an item expresses a Julian date code, the supplier/manufacturer **must** provide the formula to decode the Julian date **along with the sample**. In addition, if the Julian date code is **not** an expiration/freshness date, the supplier/manufacturer **must provide with the sample** the manufacturer’s recommended shelf life in order to determine the expiration/freshness date from the Julian date code.
 - b. There shall be no alteration of **national** brand manufacturer’s labeling for any item. Manufacturer’s bulk packaged items shall not be re-labeled for individual resale. Re-labeled items and items that indicate “not for individual resale” are not acceptable.
 - c. Labels or packaging shall not be pre-priced.
 - d. Labeling, including trademarks, logos, graphics, etc., shall not depict violence, weapons, full or partial nudity, or illegal substances.
4. **Size** - Size shall be as specified or within the range listed. Items falling outside the requested size or size range will not be considered.
5. **Packaging** - All items shall be individually packaged for resale. Select items may be specified as “clear” and/or “resealable” for security and sanitation reasons. Glass containers are not acceptable and will not be considered for award. There shall be no metal on any container.
