MANDATORY SPECIFICATIONS

1. **Labeling** – because all items are for resale, each item must be individually bar-coded.
 - a. The label must bear the name of the item, nutrition facts, ingredients, net weight, the date of expiration/freshness date, and, if applicable, instructions for preparation.
 - 1) The Department prefers expiration/freshness dating to be in month and year format; however, Julian date codes will be acceptable. If an item expresses a Julian date code, the supplier/manufacturer **must** provide the formula to decode the Julian date **along with the sample**. In addition, if the Julian date code is **not** an expiration/freshness date, the supplier/manufacturer **must provide with the sample** the manufacturer’s recommended shelf life in order to determine the expiration/freshness date from the Julian date code.
 - b. There shall be no alteration of **national** brand manufacturer’s labeling for any item. Manufacturer’s bulk packaged items shall not be re-labeled for individual resale. Re-labeled items and items that indicate “not for individual resale” are not acceptable.
 - c. Labels or packaging shall not be pre-priced.
 - d. Labeling, including trademarks, logos, graphics, etc., shall not depict violence, weapons, full or partial nudity, or illegal substances.
2. **Size** - Size shall be as specified or within the range listed. Items falling outside the requested size or size range will not be considered.
3. **Packaging** - All items shall be individually packaged for resale. Select items may be specified as “clear” and/or “resealable” for security and sanitation reasons. Glass containers are not acceptable and will not be considered for award. There shall be no metal on any container.
 - a. Retort pouches shall have notches for easy opening. Items with no notches will not be considered.
 - b. All items packaged in plastic cups or trays shall have peelable lidding. Items with non-peelable lidding will not be considered.
