Audit Findings

Audit Narrative

The Prison Rape Elimination Act (PREA) Audit for the Alcoa Correctional Center (ACC), Missouri Department of Corrections (MODOC) was conducted on June 11-13, 2018. This was the second PREA audit for this facility. The PREA Audit was coordinated through the MODOC and 3D PREA Auditing & Consulting, LLC. Department of Justice (DOJ) Certified PREA Auditor David Andraska was assigned to conduct the audit. A line of communication was developed between the MODOC Office of Professional Standards (OPS) PREA Manager and the 3D President to schedule the assigned audit. Prior to the on-site visit, the Assistant PREA Manager from OPS conducted an on-site “pre-audit” of the facility to prepare for the PREA audit. The facility’s PREA Coordinator recently retired and his position is currently vacant. Until this position is filled the Warden is assuming these duties. As a result of the Agency’s pre-audit, the Warden issued directives to staff to correct the deficiencies identified prior to the start of the on-site audit.

The auditor’s pre-audit preparations consisted of a thorough review of all documentation and materials submitted by the facility including the “Pre-Audit Questionnaire”. The documentation reviewed by the auditor included agency policies, procedures, forms, posters, pamphlets, brochures, handbooks, educational materials, training curriculums, organizational charts, and other PREA related materials the facility provided to demonstrate compliance with each PREA standard. The entrance meeting was held with Warden, Major and Assistant OPS PREA Manager and the PREA auditor. The site visit consisted of conducting a full tour of the facility, a thorough review of documentation, and formal and informal interviews with staff and offenders. Areas visited during the tour included the main lobby, all offender housing areas including segregated housing, intake, administration, medical unit, all program areas, inside and outside recreation, control room, warehouse, and, supply. PREA posters and notification of PREA audit visit was observed posted throughout all areas accessible to offenders. The notification of the PREA audit visit was documented as posted on May 3, 2018. A photograph of the posted notice was provided to the auditor.

ACC has 362 staff that may have contact with offenders. The security staff is assigned to three 8 hours shifts. The auditor conducted interviews with security, non-security, specialized staff, Warden, volunteer and contractors that included male and female staff. The Agency Head, Contract Monitor and PREA Manager interviews had previously been conducted by another DOJ certified PREA Auditor and were utilized as part of this audit. The auditors conducted 16 random sample staff interviews and 20 specialized and management staff interviews for a total of 36 staff interviews. Security staff were interviewed from all three shifts and included: Major, Captains, Lieutenants, Sergeants and Correctional Officers. All staff at ACC are trained as first responders and those questioned were well versed in their areas of responsibility regarding responding to PREA allegations.

On the first day of the audit there were 1,507 offenders at ACC. Forty-one offenders were selected to be interviewed. One offender to be interviewed resulting in forty offenders being interviewed. Twenty-three offenders were randomly selected, and sixteen offenders were in the targeted group. These included four offenders who had physical or mental disabilities, four

offenders who self-identified as transgender, four offenders that self-identified as gay or bisexual and 5 offenders who reported prior sexual victimization. All target group inmates identified by the facility were interviewed. The facility did not have any inmates who were; youthful offenders, LEP or offenders in protective custody for any PREA related issue. All inmates interviewed stated they felt generally safe, demonstrated a good understanding of PREA and reporting options.

The auditors examined a random sampling of personnel files, staff training files, and volunteer/contractor files that are maintained at the institution. New hires, volunteers and contractors are not allowed entrance into the facility until a thorough background check is completed. The training records were complete and included written documentation that staff, contractors, and volunteers received the required PREA training. The auditors viewed the signed "Training Acknowledgement Form" documenting that the all staff understood the PREA training received. The auditor selected and examined a sampling of offender institutional files and observed documentation indicating by signature the offender receiving PREA education, as well as documentation of the risk screenings performed. The auditor also observed the intake process.

All investigative files were reviewed during the on-site visit and appeared to thoroughly document the investigation process per agency policy. There were seven allegations of sexual abuse and three allegations of sexual harassment received in the past twelve month. There was six alleged staff on offender sexual abuse/ harassment investigations. The administrative findings of the alleged staff on offender allegations were two (2) unfounded, one (1) unsubstantiated, one substantiated and 2 cases are still open. Of the four (4) offender on offender allegations of sexual abuse/harassment; One (1) was unfounded, two (2) were unsubstantiated and one (1) remains open There were no substantiated allegations that were referred for criminal prosecution.

When the on-site audit was completed, an exit meeting was held with the Warden and other management staff to discuss audit findings. The auditor had been provided with extensive files prior to the audit, for review to support a conclusion of compliance with PREA standards. While at the facility, the auditor reviewed a sufficient sampling based on the size of the facility of case records, training records, investigative reports, additional program information and documents. The auditor interviewed the required number of staff and inmates based on the population and all were knowledgeable regarding PREA requirements. All interviews and observations supported compliance. The facility staff was found to be cooperative and professional. Staff morale appeared to be very good and they took pride in their work and the observed staff/inmate relationships were determined to be good. All areas of the facility were clean and well maintained. The auditor explained the audit report process. The auditor thanked the Warden and staff for their hard work, dedication and commitment to comply with PREA standards.

Facility Characteristics

The Algoa Correctional Facility was built in 1932 and is a minimum security institution located in Jefferson City, Missouri that houses adult male offenders. The design capacity of the facility is 1,537 offenders. The facility has 11 living units which consist of both multiple occupancy cell

housing unit and open bay dormitory style units. It has a 98 bed segregation unit. There are a total of 23 buildings on the grounds to include several maintenance buildings, shop areas, food service, education, vocational, medical, chapel and recreation.

The facility offers a variety of educational and vocational programs and offers work release. The facility has the distinction of being the only male correctional facility in Missouri that has the InnerChange Freedom Initiative program (IFI). This is a program offered by the prison fellowship ministries, and starts in the last year or two of an offender's sentence. The IFI program prepares offenders for life after prison by helping the offender to develop spiritual and moral compass, and by creating a system of values within the inmate. ACC also has a Puppies for Parole Program. Puppies for Parole operates through partnerships with animal shelters and animal advocate groups statewide. In Puppies for Parole, selected offenders have the opportunity to become trainers to rescue dogs. Offenders teach dogs basic obedience skills and socialize them, making them more adoptable. Once the dogs have successfully completed the program, they are adopted through their original shelters.

Summary of Corrective Action (if any)

During the tour, the auditor noted a concern regarding cross gender viewing by the inside segregation recreation area. Action was taken immediately and a privacy screen was installed by the toilet in the segregation recreation area during the audit. Tour of the facility found a "blind spot" in storage area and the showers in 16 building. Action was taken immediately and a mirror was installed in the storage area. The showers had solid ceiling to floor shower curtains which were replaced with a PREA style shower curtain which are clear on the top and bottom. The facility sent the auditor pictures of the installed curtains on 6/25/2018.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Missouri Department of Corrections Department Procedural Manual, D1-8.13 Offender Sexual Abuse and Harassment (MODOC Policy D1-8.13); Offender Handbook; Director's Office and Facility Organization Charts and duties of the PREA Manager and PREA Site Coordinator were reviewed and address all the requirements of this standard. ACC and MODOC have written policies and procedures in place to support the agency's mission and goal of maintaining a zero tolerance of sexual abuse and sexual harassment. The policies provide an outline of required practice in the agency's approach to preventing, detecting, and responding to allegations of sexual harassment or sexual abuse. The policy includes definitions of prohibited behaviors regarding sexual assault and sexual harassment of offenders with sanctions for those found to have participated in these prohibited behaviors.

Policies identify the Agency's strategies and responsibilities to detect, reduce and prevent sexual abuse and sexual harassment of offenders. During interviews with the selection of random staff and specialty staff, each confirmed receiving PREA training and was knowledgeable of their responsibilities. PREA training is provided to staff during initial training and bi-annually as outline in policy. Those individuals interviewed shared their understanding of the agency's zero tolerance in sexual abuse and sexual harassment within the guidelines of the PREA standards. PREA posters and literature describing the agency's zero tolerance of sexual abuse and sexual harassment were observed by the auditor strategically located and accessible throughout the facility for staff and offenders' awareness.

The Office of Professional Standards has a PREA Manager assigned by the Agency Director to coordinate the Agency's statewide compliance with PREA. In an interview with the PREA Manager, she confirmed that her time is exclusively devoted to ensuring compliance with all PREA standards and ensure the prevention of sexual abuse and sexual harassment. Effective communication is routinely maintained through phone calls, memorandums, emails, training, and meetings to discuss policy updates, new initiatives and any issues of concerns. Each facility designates a PREA site coordinator (typically a Deputy Warden) who has sufficient time and authority to ensure the facility's compliance with the PREA standards. At ACC the PREA site coordinator was the Deputy Warden however, he has recently retired and his position is currently vacant. The Warden has assumed the PREA Compliance Manager duties.

Based on review of policy, procedures, offender handbooks, education and orientation process, training curriculums and interviews with the PREA Manager, Warden, staff and offenders, observation of bulletin boards, posters and PREA, material during the tour of the facility, it was apparent that MODOC and ACC are committed to zero tolerance of sexual abuse and sexual harassment and meet the requirement of Standard 115.11.

- Does Not Meet Standard** (*Requires Corrective Action*)

MODOC Policy D1-8.13; Missouri Department of Corrections Institutional Services Procedural Manual, IS6-1.3 Offender Personal Appearance and Grooming (MODOC Policy IS6-1.3); Missouri Department of Corrections Institutional Services Procedural Manual, IS20-1.3 Searches (MODOC Policy IS20-1.3); Missouri Department of Corrections Institutional Services Procedural Manual, IS11-34.1 Health Assessment and/or Physical Examination at Reception (MODOC Policy IS11-34.1); Officer Post Orders and MODOC Lesson Plan on Institutional Searches; Training log of Staff Training were reviewed and address the requirements of this standard. The Agency and facility prohibit cross gender pat searches on female offenders and prohibits all cross gender visual body cavity searches or strip searches. ACC only houses male offenders. Individual shower stalls have appropriate shower curtains or doors and offenders can shower, perform bodily functions, and change clothing without staff of the opposite gender viewing their buttocks or genitalia. Prior to entry into the housing area of offenders, staff of opposite gender must announce their presence. The announcement is entered in the Chronological Log noting the date, time staff person entering the area and area entered. Observation of this procedure and a review of the chronological log were conducted by the auditor.

Policy prohibits staff from physically examining transgender or intersex offenders for the sole purpose of determining the offender's genital status. The determination of transgender and/or intersex offenders genital status may be obtained during conversations with the offender, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Procedures for conducting cross-gender searches, transgender, intersex, or gender unknown searches are outlined in the Division Institutional Searches Lesson Plan. All staff interviewed acknowledged receipt of training and a review of their documented signature confirmed such training. Staff provided the auditor with verbal instructions on conducting cross-gender searches. Staff confirmed these searches of transgender or intersex offenders, must be conducted in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. Four transgender offenders were interviewed and they stated searches were completed appropriately. .

Based on policies, procedures documentation provided observations of showers, toilet areas and dressing areas and interviews with staff and offenders and the corrective action the facility took during and after the audit, ACC is compliant with Standard 115.15.

MODOC Policy D1-8.13; MODOC Lesson Plan for Special Needs; Translation Service Contract, ACC Coordinated Response Plan; PREA Pamphlets; PREA Sexual Abuse Brochures in multiple languages were reviewed and address the requirements of this standard. ACC takes steps and has policies and procedures that ensure offenders with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. ACC provides offenders with materials which are available in a variety of languages to include English, Spanish, Chinese (Traditional), Japanese, Large Print-Blind-Braille, Russian, Serbo-

Croatian, and Vietnamese. PREA posters and educational materials are provided in English and Spanish. Offenders who are deaf are provided PREA information thru written form, i.e. PREA guidelines, Education Brochures and Videos with subtitles. Offenders who are blind are provided an audio version in either English or Spanish. PREA Videos are available with subtitles. Interviews with random staff confirmed the facility does not rely on offender interpreters, offender readers, or other types of offender assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise an offender's safety, the performance of first responder duties, or the investigation of an offender's allegations. Four offenders identified as having a physical or mental disability confirmed staff provided PREA educational material that they were able to understand. Before hiring new employees the human resources staff members or designee perform a criminal background records check and contact all prior institutional employers, when possible, for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse in accordance with the depart procedure regarding background investigation. Prior to approval of a promotional appointment, regardless of the salary range, a check is conducted of the employee's official personnel file through central office human resources. The check is performed to ensure the employee has received no formal discipline for sustained allegations of sexual abuse and/or harassment or any information indicating any pending or adjudicated criminal charges. All sustained allegations are considered by the department before an employee is promoted. Backgrounds checks are conducted annually on the first day of the staff's birth month. A check is also conducted on the staff's member driver license every year. The background checks are conducted through the Missouri State Highway Patrol utilizing the Missouri Uniform Law Enforcement System (MULES) and the National Crime Information Center System (NCICS). The Application for Employment require applicants to report all work history in prison, jail, lockup, community treatment centers, halfway house, restitution center, mental facility, alcohol or drug

rehabilitation center, juvenile facility or other correctional facility (public or private). The applicant must also report if they were terminated or otherwise disciplined or counseled for sexual contact with or sexual harassment on an inmate, detainee, or reside of the facility. Applicants must certify the information provided is correct to the best of their knowledge and understand that falsification of the information is grounds for disqualification from the selection process or dismissal from employment. All employees and contractors are required to report any subsequent arrest to their immediate supervisor before reporting for duty.

Based on review of policies, documentation, forms, employee files; annual background check procedures and interview with Human Resource staff confirm that ACC exceeds the requirement for standard 115.17.

MDOC Policy D1-8.13; PREA Victim/Abuser Protocol; ACC Offender Handbook; Offender Orientation Sign-in Sheets; PREA Posters, Pamphlets and Speaking Up video were reviewed and address the requirements of this standard. ACC ensures all incoming offenders receive PREA information on the day of arrival during the intake process. MDOC Policy D1-8.13; MODOC Lesson Plan– Special Investigator Training; and Training Acknowledgement for Investigators were reviewed and meet the requirements of this standard. OPS Investigators are assigned to conduct sexual abuse allegations and/or sexual harassment within the MODOC. These Investigators are required and have received specialized training for conducting sexual abuse/harassment investigations in confinement settings. The OPS Investigators complete a 40 hour course that includes PREA Specialist Investigative Training at the Central Office in Jefferson City, MO. This training includes techniques for interviewing sexual abuse victims, proper use of the Miranda and Garrity warnings, sexual abuse evidence collection in confinement setting, and the criteria and evidence to substantiate a case for administrative action or prosecution referral. Documentation of the mandatory training received by the ten OPS Investigators throughout the Agency, who are authorized to conduct sexual abuse/harassment investigations, was reviewed by the audit team. An OPS Investigator articulated the training provided to all investigators during the interview process.

Based on review of policies, procedures and training records, and interviews with the OPS investigators, ACC is compliant with Standard 115.34.

MODOC Policy D1-8.13; MODOC Policy IS5-2.3; MODOC Policy IS5-3.1; Missouri Department of Corrections Institutional Services Procedural Manual, IS18-1.1 Required Activities (MODOC Policy IS18-1.1) and reports from the Transgender Committee meeting were reviewed and address the requirements of this standard. Based on the assessment offenders are scored as Alpha (high risk of abusiveness), Kappa (low risk of abusiveness or victimization) or Sigma (high risk of victimization). Offenders Information obtained during the screening is used by staff to make individualized determinations about how to ensure the safety of each offender. Alpha and Sigma are not housed in the same unit. Transgender or intersex offender's housing is considered on a case-by-case basis, placement considers the offenders health and safety, and whether the placement would present management or security problems. MODOC Policies D1-8.13 and D1-8.9; Employee Handbook; Offender Handbook; PREA Posters and Brochure; ACC Coordinated Response Plan; MOU with Department of Public Safety and the PREA Hotline information was reviewed and address the requirements of this standard. A variety of procedures have been established both internally and externally that allows the offenders to report sexual abuse and harassment. Offenders receive a copy of The Offender Handbook during the intake process which advises them that they can contact any staff member or by calling the Department's confidential hotline to report sexual abuse or harassment internally. The hotline number was tested by the auditor and was found to be working. Additionally, there are posters throughout the facility which also inform the offenders of other reporting options. To report to an external organization, offenders can write the Missouri Department of Public Safety, Crimes Victims' Unit. Reports may be made confidentially and remain anonymous upon request. Offenders may also report allegations to third parties who in turn would contact the MODOC concerning the allegations. All allegations, including anonymous allegations, are investigated. - Does Not Meet Standard** (*Requires Corrective Action*)

MDOC Policy D1-8.13; Missouri Department of Corrections Department Procedural Manual, D5-3.2 Offender Grievances (MODOC Policy D5-3.2 were reviewed and address the requirements of this standard. Offenders are informed of the grievance process during orientation. Offenders will not be required to use any informal grievance or complaint process. Offenders will not have a time limit imposed for submitting a grievance related to an allegation of sexual abuse. Offenders will not submit a complaint to a staff member who is the subject of the complaint. Agency policies and procedures require a decision on the merit of any grievance or portion of a grievance alleging sexual abuse to be made with 90 days of filing the grievance. Staffs are required to notify the offender in writing when the Agency files for an extension, including notice of the date by which a decision will be made. MODOC authorizes assistance for filing these grievances by third parties, to include other offenders, family members, friends, attorneys, and outside advocates. The Agency policies also address the offender's opportunity to file an emergency grievance alleging they are a subject to a substantial risk of imminent sexual abuse. Under these circumstances, the Agency is required to issue a response to the offender within 48 hours upon receipt of the grievance and a final decision must be issued within 5 days. There were one grievances filed at ACC in the last 12 months that alleged sexual abuse. The grievance was referred to the PREA investigator and the offender was notified.

Auditor Overall Compliance Determination

- Does Not Meet Standard** (*Requires Corrective Action*)

MODOC Policy D1-8.13; PREA advocacy brochure; Offender Handbook and MOU with Missouri Department of Public Safety Brochure were reviewed and address the requirements of this standard. Policies are in place and enforced to provide offenders with access to outside victim advocates for emotional support services related to sexual abuse by giving offenders mailing addresses and telephone numbers, including toll-free hotline numbers where available, of national victim advocacy or rape crisis organizations.

The facility provides this information in multiple ways to the offenders: during the education process, in the PREA brochure, in the Offender Handbook, and on posters within the facility. Ensuring the alleged victim receives the advocacy brochure is part of the PREA response checklist. The facility enables reasonable communication between offenders and these organizations and agencies in as confidential a manner as possible. According to interviews with a random sample of offenders they are aware of and have access to victim advocates for emotional support services available outside the facility for dealing with sexual abuse. The facility informs offenders, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

The agency and facility has attempted to obtain an agreement for a community victim advocate from a rape crisis center. However at this time, an agreement has not been established. The effort to obtain an agreement is documented in various emails. The agency continues to solicit community rape crisis organizations across the State that are willing to establish a partnership with the agency. In lieu of a local community victim advocate the facility has available a trained and qualified staff member available to provide emotional support services and counseling on and off the facility as needed.

- Does Not Meet Standard** (*Requires Corrective Action*)

The MODOC website <http://www.doc.mo.gov/OD/PREA.php> confirms that the agency ensures that the auditor's final report is published on the agency's website. MODOC is composed of 22 Adult Institutions, 7 Community Supervision Centers, and 1 Transition Center. A review of the website found the Final PREA Audit Reports for 42 of MODOC facilities between the years of 2014 – 2018. There were 3 facilities audited in 2018, 10 facilities audited in 2017, 10 facilities audited in 2016, 16 facilities audited in 2015, and 3 in 2014. The most recent audit appearing on the website was May 29, 2018, well within the 90-day requirement. MODOC meets the requirement of this standard.
